

EUROPEAN EDUCATION AND CULTURE EXECUTIVE AGENCY (EACEA)

EACEA.B – Creativity, Citizens, EU Values and Joint Operations
B.3 – Europe for Citizens

GRANT AGREEMENT

Project 101054186 — Future

PREAMBLE

This **Agreement** ('the Agreement') is **between** the following parties:

on the one part,

the **European Education and Culture Executive Agency (EACEA)** ('EU executive agency' or 'granting authority'), under the powers delegated by the European Commission ('European Commission'),

and

on the other part,

1. 'the coordinator':

MESTO VELKY MEDER (VELKY MEDER), PIC 913266447, established in KOMARNANSKA 207/9, VELKY MEDER 932 01, Slovakia,

Unless otherwise specified, references to 'beneficiary' or 'beneficiaries' include the coordinator and affiliated entities (if any).

If only one beneficiary signs the grant agreement ('mono-beneficiary grant'), all provisions referring to the 'coordinator' or the 'beneficiaries' will be considered — mutatis mutandis — as referring to the beneficiary.

The parties referred to above have agreed to enter into the Agreement.

By signing the Agreement and the accession forms, the beneficiaries accept the grant and agree to implement the action under their own responsibility and in accordance with the Agreement, with all the obligations and terms and conditions it sets out.

The Agreement is composed of:

Preamble

Terms and Conditions (including Data Sheet)

- Annex 1 Description of the action¹
- Annex 2 Estimated budget for the action
- Annex 3 Accession forms (if applicable)²
- Annex 3a Declaration on joint and several liability of affiliated entities (if applicable)³
- Annex 4 Model for the financial statements
- Annex 5 Specific rules (if applicable)

ARTICLE 36 — COMMUNICATION BETWEEN THE PARTIES.....	54
36.1 Forms and means of communication — Electronic management.....	54
36.2 Date of communication.....	55
36.3 Addresses for communication.....	55
ARTICLE 37 — INTERPRETATION OF THE AGREEMENT.....	55
ARTICLE 38 — CALCULATION OF PERIODS AND DEADLINES.....	56
ARTICLE 39 — AMENDMENTS.....	56
39.1 Conditions.....	56
39.2 Procedure.....	56
ARTICLE 40 — ACCESSION AND ADDITION OF NEW BENEFICIARIES.....	57
40.1 Accession of the beneficiaries mentioned in the Preamble.....	57
40.2 Addition of new beneficiaries.....	57
ARTICLE 41 — TRANSFER OF THE AGREEMENT.....	57
ARTICLE 42 — ASSIGNMENTS OF CLAIMS FOR PAYMENT AGAINST THE GRANTING AUTHORITY.....	57
ARTICLE 43 — APPLICABLE LAW AND SETTLEMENT OF DISPUTES.....	58
43.1 Applicable law.....	58
43.2 Dispute settlement.....	58
ARTICLE 44 — ENTRY INTO FORCE.....	58

DATA SHEET

1. General data

Project summary:

Project summary
<p>What we do now, will define our future is the motto of the international project. The project is a common work of partners from seven European countries. Its task is to determine the basic needs of citizens and the partnership and to transfer them to mutual debates. The project will deal with the following issues: strengthening the situation of the European Union among citizens, support for non-discrimination, removing prejudices against ethnical minorities, impacts of the COVID-19 pandemic, strengthening the future of the partnership, and presentation of cultural richness of the partnership. Special attention will be paid to the participation of young people who are the important element of society due to their role in the future of the partnership and the EU. The implementation of the project will be conducted through lectures, debates, workshops, presentations, and best practices. The mutual project will be carried out as a single event lasting 3 days. The project implementation shall underline the current needs. The COVID-19 pandemic introduced limitations in functioning of the partner municipalities. The project will help to remove the limitations. At the same time, it will allow the organization of people from 8 partner municipalities, 2 of which are completely new. It will also enable the meeting of ethnical minorities living at the territories of the partner municipalities. The nations and minorities will find the common language through presentations of culture. Thus, the project will contribute to removing the negative experiences with the lockdown in the countries and to opening the partnership for other self-governments and their citizens. Project goals: 1) to strengthen solidarity in Europe 2) to remove prejudices against ethnical minorities 3) to ensure active participation of citizens at the local level 4) to attract young people towards the EU 5) to connect people and encourage new friendships</p>

Keywords:

- Inter-cultural dialogue

3. Grant**Maximum grant amount, total estimated eligible costs and contributions and funding rate:**

Maximum grant amount (Annex 2)	Maximum grant amount (award decision)
30 000.00	30 000.00

Grant form: Lump Sum**Grant mode:** Action grant**Budget categories/activity types:** Lump sum contributions**Cost eligibility options:** n/a**Budget flexibility:** No**4. Reporting, payments and recoveries****4.1 Continuous reporting** (art 21)**Deliverables:** see Funding & Tenders Portal Continuous Reporting tool**4.2 Periodic reporting and payments****Reporting and payment schedule** (art 21, 22):

Reporting					Payments	
Reporting periods			Type	Deadline	Type	Deadline (time to pay)
RP No	Month from	Month to				
					Initial prefinancing	n/a
					Final payment	90 days from receiving periodic report
1	1	6	Periodic report	60 days after end of reporting period		

Prefinancing payments and guarantees: n/a

Reporting and payment modalities (art 21, 22):

Mutual Insurance Mechanism (MIM): No

Restrictions on distribution of initial prefinancing: The prefinancing may be distributed only if the minimum number of beneficiaries set out in the call conditions (if any) have acceded to the Agreement and only to beneficiaries that have acceded.

Interim payment ceiling (if any): 100% of the maximum grant amount

No-profit rule: n/a

Late payment interest: ECB + 3.5%

Bank account for payments:

SK0711000000002926871685

Conversion into euros: n/a

Reporting language: Language of the Agreement or other EU official language, if specified in the call conditions

4.3 Certificates (art 24): n/a

4.4 Recoveries (art 22)

First-line liability for recoveries:

Beneficiary termination: Beneficiary concerned

Final payment: Coordinator

After final payment: Beneficiary concerned

Joint and several liability for enforced recoveries (in case of non-payment):

Limited joint and several liability of other beneficiaries — up to the maximum grant amount of the beneficiary

Joint and several liability of affiliated entities — n/a

5. Consequences of non-compliance, applicable law & dispute settlement forum

Applicable law (art 43):

Standard applicable law regime: EU law + law of Belgium

Dispute settlement forum (art 43):

Standard dispute settlement forum:

EU beneficiaries: EU General Court + EU Court of Justice (on appeal)

Non-EU beneficiaries: Courts of Brussels, Belgium (unless an international agreement provides for the enforceability of EU court judgements)

6. Other

Specific rules (Annex 5): Yes

Standard time-limits after project end:

Confidentiality (for X years after final payment): 5

Record-keeping (for X years after final payment): 5 (or 3 for grants of not more than EUR 60 000)

Reviews (up to X years after final payment): 5 (or 3 for grants of not more than EUR 60 000)

Audits (up to X years after final payment): 5 (or 3 for grants of not more than EUR 60 000)

Extension of findings from other grants to this grant (no later than X years after final payment): 5 (or 3 for grants of not more than EUR 60 000)

Impact evaluation (up to X years after final payment): 5 (or 3 for grants of not more than EUR 60 000)

CHAPTER 1 GENERAL

ARTICLE 1 — SUBJECT OF THE AGREEMENT

This Agreement sets out the rights and obligations and terms and conditions applicable to the grant awarded for the implementation of the action set out in Chapter 2.

ARTICLE 2 — DEFINITIONS

For the purpose of this Agreement, the following definitions apply:

Actions — The project which is being funded in the context of this Agreement.

Grant — The grant awarded in the context of this Agreement.

EU grants — Grants awarded by EU institutions, bodies, offices or agencies (including EU executive agencies, EU regulatory agencies, EDA, joint undertakings, etc.).

Participants — Entities participating in the action as beneficiaries, affiliated entities, associated partners, third parties giving in-kind contributions, subcontractors or recipients of financial support to third parties.

Beneficiaries (BEN) — The signatories of this Agreement (either directly or through an accession form).

Affiliated entities (AE) — Entities affiliated to a beneficiary within the meaning of Article 187 of EU Financial Regulation 2018/1046⁴ which participate in the action with similar rights and obligations as the beneficiaries (obligation to implement action tasks and right to charge costs and claim contributions).

Associated partners (AP) — Entities which participate in the action, but without the right to charge costs or claim contributions.

Purchases — Contracts for goods, works or services needed to carry out the action (e.g. equipment, consumables and supplies) but which are not part of the action tasks (see Annex 1).

Subcontracting — Contracts for goods, works or services that are part of the action tasks (see Annex 1).

In-kind contributions — In-kind contributions within the meaning of Article 2(36) of EU Financial

⁴ For the definition, see Article 187 Regulation (EU, Euratom) 2018/1046 of the European Parliament and of the Council of 18 July 2018 on the financial rules applicable to the general budget of the Union, amending Regulations (EU) No 1296/2013, (EU) No 1301/2013, (EU) No 1303/2013, (EU) No 1304/2013, (EU) No 1309/2013, (EU) No 1316/2013, (EU) No 223/2014, (EU) No 283/2014, and Decision No 541/2014/EU and repealing Regulation (EU, Euratom) No 966/2012 ('EU Financial Regulation') (OJ L 193, 30.7.2018, p. 1): "**affiliated entities** [are]:

- (a) entities that form a sole beneficiary [(i.e. where an entity is formed of several entities that satisfy the criteria for being awarded a grant, including where the entity is specifically established for the purpose of implementing an action to be financed by a grant)];
- (b) entities that satisfy the eligibility criteria and that do not fall within one of the situations referred to in Article 136(1) and 141(1) and that have a link with the beneficiary, in particular a legal or capital link, which is neither limited to the action nor established for the sole purpose of its implementation".

Regulation 2018/1046, i.e. non-financial resources made available free of charge by third parties.

Fraud — Fraud within the meaning of Article 3 of EU Directive 2017/1371⁵ and Article 1 of the Convention on the protection of the European Communities' financial interests, drawn up by the Council Act of 26 July 1995⁶, as well as any other wrongful or criminal deception intended to result in financial or personal gain.

Irregularities — Any type of breach (regulatory or contractual) which could impact the EU financial interests, including irregularities within the meaning of Article 1(2) of EU Regulation 2988/95⁷.

Grave professional misconduct — Any type of unacceptable or improper behaviour in exercising one's profession, especially by employees, including grave professional misconduct within the meaning of Article 136(1)(c) of EU Financial Regulation 2018/1046.

Applicable EU, international and national law — Any legal acts or other (binding or non-binding) rules and guidance in the area concerned.

Portal — EU Funding & Tenders Portal; electronic portal and exchange system managed by the European Commission and used by itself and other EU institutions, bodies, offices or agencies for the management of their funding programmes (grants, procurements, prizes, etc.).

CHAPTER 2 ACTION

ARTICLE 3 — ACTION

The grant is awarded for the action **101054186 — Future** ('action'), as described in Annex 1.

ARTICLE 4 — DURATION AND STARTING DATE

The duration and the starting date of the action are set out in the Data Sheet (see Point 1).

CHAPTER 3 GRANT

ARTICLE 5 — GRANT

5.1 Form of grant

⁵ Directive (EU) 2017/1371 of the European Parliament and of the Council of 5 July 2017 on the fight against fraud to the Union's financial interests by means of criminal law (OJ L 198, 28.7.2017, p. 29).

⁶ OJ C 316, 27.11.1995, p. 48.

⁷ Council Regulation (EC, Euratom) No 2988/95 of 18 December 1995 on the protection of the European Communities financial interests (OJ L 312, 23.12.1995, p. 1).

The grant is an action grant⁸ which takes the form of a lump sum grant for the completion of work packages.

5.2 Maximum grant amount

The maximum grant amount is set out in the Data Sheet (see Point 3) and in the estimated budget (Annex 2).

5.3 Funding rate

Not applicable

5.4 Estimated budget, budget categories and forms of funding

The estimated budget for the action (lump sum breakdown) is set out in Annex 2.

It contains the estimated eligible contributions for the action (lump sum contributions), broken down by participant and work package.

Annex 2 also shows the types of contributions (forms of funding)⁹ to be used for each work package.

5.5 Budget flexibility

Budget flexibility does not apply; changes to the estimated budget (lump sum breakdown) always require an amendment (see Article 39).

Amendments for transfers between *work packages* are moreover possible only if:

- the work packages concerned are not already completed (and declared in a financial statement) and
- the transfers are justified by the technical implementation of the action.

ARTICLE 6 — ELIGIBLE AND INELIGIBLE CONTRIBUTIONS

6.1 and 6.2 General and specific eligibility conditions

Lump sum contributions are eligible ('eligible contributions'), if:

- (a) they are set out in Annex 2 and
- (b) the work packages are completed and the work is properly implemented by the beneficiaries and/or the results are achieved, in accordance with Annex 1 and during in the period set out in Article 4 (with the exception of work/results relating to the submission of the final periodic report, which may be achieved afterwards; see Article 21)

They will be calculated on the basis of the amounts set out in Annex 2.

⁸ For the definition, see Article 180(2)(a) EU Financial Regulation 2018/1046: '**action grant**' means an EU grant to finance "an action intended to help achieve a Union policy objective".

⁹ See Article 125 EU Financial Regulation 2018/1046.

6.3 Ineligible contributions

‘Ineligible contributions’ are:

- (a) lump sum contributions that do not comply with the conditions set out above (see Article 6.1 and 6.2)
- (b) lump sum contributions for activities already funded under other EU grants (or grants awarded by an EU Member State, non-EU country or other body implementing the EU budget), except for the following case:
 - (i) Synergy actions: not applicable
- (c) other:
 - (i) country restrictions for eligible costs: not applicable.

6.4 Consequences of non-compliance

If a beneficiary declares lump sum contributions that are ineligible, they will be rejected (see Article 27).

This may also lead to other measures described in Chapter 5.

CHAPTER 4 GRANT IMPLEMENTATION

SECTION 1 CONSORTIUM: BENEFICIARIES, AFFILIATED ENTITIES AND OTHER PARTICIPANTS

ARTICLE 7 — BENEFICIARIES

The beneficiaries, as signatories of the Agreement, are fully responsible towards the granting authority for implementing it and for complying with all its obligations.

They must implement the Agreement to their best abilities, in good faith and in accordance with all the obligations and terms and conditions it sets out.

They must have the appropriate resources to implement the action and implement the action under their own responsibility and in accordance with Article 11. If they rely on affiliated entities or other participants (see Articles 8 and 9), they retain sole responsibility towards the granting authority and the other beneficiaries.

They are jointly responsible for the *technical* implementation of the action. If one of the beneficiaries fails to implement their part of the action, the other beneficiaries must ensure that this part is implemented by someone else (without being entitled to an increase of the maximum grant amount and subject to an amendment; see Article 39). The *financial* responsibility of each beneficiary in case of recoveries is governed by Article 22.

The beneficiaries (and their action) must remain eligible under the EU programme funding the grant

for the entire duration of the action. Lump sum contributions will be eligible only as long as the beneficiary and the action are eligible.

The **internal roles and responsibilities** of the beneficiaries are divided as follows:

(a) Each beneficiary must:

- (i) keep information stored in the Portal Participant Register up to date (see Article 19)
- (ii) inform the granting authority (and the other beneficiaries) immediately of any events or circumstances likely to affect significantly or delay the implementation of the action (see Article 19)
- (iii) submit to the coordinator in good time:
 - the prefinancing guarantees (if required; see Article 23)
 - the financial statements and certificates on the financial statements (CFS): not applicable
 - the contribution to the deliverables and technical reports (see Article 21)
 - any other documents or information required by the granting authority under the Agreement
- (iv) submit via the Portal data and information related to the participation of their affiliated entities.

(b) The coordinator must:

- (i) monitor that the action is implemented properly (see Article 11)
- (ii) act as the intermediary for all communications between the consortium and the granting authority, unless the Agreement or granting authority specifies otherwise, and in particular:
 - submit the prefinancing guarantees to the granting authority (if any)
 - request and review any documents or information required and verify their quality and completeness before passing them on to the granting authority
 - submit the deliverables and reports to the granting authority
 - inform the granting authority about the payments made to the other beneficiaries (report on the distribution of payments; if required, see Articles 22 and 32)
- (iii) distribute the payments received from the granting authority to the other beneficiaries without unjustified delay (see Article 22).

The coordinator may not delegate or subcontract the above-mentioned tasks to any other beneficiary or third party (including affiliated entities).

However, coordinators which are public bodies may delegate the tasks set out in Point (b)(ii) last

indent and (iii) above to entities with ‘authorisation to administer’ which they have created or which are controlled by or affiliated to them. In this case, the coordinator retains sole responsibility for the payments and for compliance with the obligations under the Agreement.

Moreover, coordinators which are ‘sole beneficiaries’¹⁰ (or similar, such as European research infrastructure consortia (ERICs)) may delegate the tasks set out in Point (b)(i) to (iii) above to one of their members. The coordinator retains sole responsibility for compliance with the obligations under the Agreement.

The beneficiaries must have **internal arrangements** regarding their operation and co-ordination, to ensure that the action is implemented properly.

If required by the granting authority (see Data Sheet, Point 1), these arrangements must be set out in a written **consortium agreement** between the beneficiaries, covering for instance:

- the internal organisation of the consortium
- the management of access to the Portal
- different distribution keys for the payments and financial responsibilities in case of recoveries (if any)
- additional rules on rights and obligations related to background and results (see Article 16)
- settlement of internal disputes
- liability, indemnification and confidentiality arrangements between the beneficiaries.

The internal arrangements must not contain any provision contrary to this Agreement.

ARTICLE 8 — AFFILIATED ENTITIES

Not applicable

ARTICLE 9 — OTHER PARTICIPANTS INVOLVED IN THE ACTION

9.1 Associated partners

The following entities which cooperate with a beneficiary will participate in the action as ‘associated partners’:

- **Mesto Dobruska (Dobruška)**, PIC 920295261
- **BACSALMAS VAROS ONKORMANYZATA (Bácsalmás)**, PIC 943768776
- **Ábrahámhegy kozseg onkormanyzata (Ábrahámhegy)**, PIC 913266544
- **OBCINA LENDAVA (Lendava)**, PIC 932142453

¹⁰ For the definition, see Article 187(2) EU Financial Regulation 2018/1046: “Where several entities satisfy the criteria for being awarded a grant and together form one entity, that entity may be treated as the **sole beneficiary**, including where it is specifically established for the purpose of implementing the action financed by the grant.”

- **Comuna Sangeorgiu de Padure (Sangeorgiu)**, PIC 920295067
- **Opstina Mojkovac (Mojkovac)**, PIC 948178202
- **Grad Cacak (Čačak)**, PIC 889622988

Associated partners must implement the action tasks attributed to them in Annex 1 in accordance with Article 11. They may not charge contributions to the action (no lump sum contributions) and the costs for their tasks are not eligible (may not be included in the estimated budget in Annex 2).

The tasks must be set out in Annex 1.

The beneficiaries must ensure that their contractual obligations under Articles 11 (proper implementation), 12 (conflict of interests), 13 (confidentiality and security), 14 (ethics), 17.2 (visibility), 18 (specific rules for carrying out action), 19 (information) and 20 (record-keeping) also apply to the associated partners.

The beneficiaries must ensure that the bodies mentioned in Article 25 (e.g. granting authority, OLAF, Court of Auditors (ECA), etc.) can exercise their rights also towards the associated partners.

9.2 Third parties giving in-kind contributions to the action

Other third parties may give in-kind contributions to the action (i.e. personnel, equipment, other goods, works and services, etc. which are free-of-charge), if necessary for the implementation.

Third parties giving in-kind contributions do not implement any action tasks. They may not charge contributions to the action (no lump sum contributions) and the costs for the in-kind contributions are not eligible (may not be included in the estimated budget in Annex 2).

The third parties and their in-kind contributions should be set out in Annex 1.

9.3 Subcontractors

Subcontractors may participate in the action, if necessary for the implementation.

Subcontractors must implement their action tasks in accordance with Article 11. The beneficiaries' costs for subcontracting are considered entirely covered by the lump sum contributions for implementing the work packages (irrespective of the actual subcontracting costs incurred, if any).

The beneficiaries must ensure that their contractual obligations under Articles 11 (proper implementation), 12 (conflict of interest), 13 (confidentiality and security), 14 (ethics), 17.2 (visibility), 18 (specific rules for carrying out action), 19 (information) and 20 (record-keeping) also apply to the subcontractors.

The beneficiaries must ensure that the bodies mentioned in Article 25 (e.g. granting authority, OLAF, Court of Auditors (ECA), etc.) can exercise their rights also towards the subcontractors.

9.4 Recipients of financial support to third parties

If the action includes providing financial support to third parties (e.g. grants, prizes or similar forms of support), the beneficiaries must ensure that their contractual obligations under Articles 12 (conflict of interest), 13 (confidentiality and security), 14 (ethics), 17.2 (visibility), 18 (specific rules for carrying

out action), 19 (information) and 20 (record-keeping) also apply to the third parties receiving the support (recipients).

The beneficiaries must also ensure that the bodies mentioned in Article 25 (e.g. granting authority, OLAF, Court of Auditors (ECA), etc.) can exercise their rights also towards the recipients.

ARTICLE 10 — PARTICIPANTS WITH SPECIAL STATUS

10.1 Non-EU participants

Participants which are established in a non-EU country (if any) undertake to comply with their obligations under the Agreement and:

- to respect general principles (including fundamental rights, values and ethical principles, environmental and labour standards, rules on classified information, intellectual property rights, visibility of funding and protection of personal data)
- for the submission of certificates under Article 24: use qualified external auditors which are independent and comply with comparable standards as those set out in EU Directive 2006/43/EC¹¹
- for the controls under Article 25: allow for checks, reviews, audits and investigations (including on-the-spot checks, visits and inspections) by the bodies mentioned in that Article (e.g. granting authority, OLAF, Court of Auditors (ECA), etc.).

Special rules on dispute settlement apply (see Data Sheet, Point 5).

10.2 Participants which are international organisations

Participants which are international organisations (IOs; if any) undertake to comply with their obligations under the Agreement and:

- to respect general principles (including fundamental rights, values and ethical principles, environmental and labour standards, rules on classified information, intellectual property rights, visibility of funding and protection of personal data)
- for the submission of certificates under Article 24: to use either independent public officers or external auditors which comply with comparable standards as those set out in EU Directive 2006/43/EC
- for the controls under Article 25: to allow for the checks, reviews, audits and investigations by the bodies mentioned in that Article, taking into account the specific agreements concluded by them and the EU (if any).

For such participants, nothing in the Agreement will be interpreted as a waiver of their privileges or immunities, as accorded by their constituent documents or international law.

Special rules on applicable law and dispute settlement apply (see Article 43 and Data Sheet, Point 5).

¹¹ Directive 2006/43/EC of the European Parliament and of the Council of 17 May 2006 on statutory audits of annual accounts and consolidated accounts or similar national regulations (OJ L 157, 9.6.2006, p. 87).

10.3 Pillar-assessed participants

Pillar-assessed participants (if any) may rely on their own systems, rules and procedures, in so far as they have been positively assessed and do not call into question the decision awarding the grant or breach the principle of equal treatment of applicants or beneficiaries.

‘Pillar-assessment’ means a review by the European Commission on the systems, rules and procedures which participants use for managing EU grants (in particular internal control system, accounting system, external audits, financing of third parties, rules on recovery and exclusion, information on recipients and protection of personal data; see Article 154 EU Financial Regulation 2018/1046).

Participants with a positive pillar assessment may rely on their own systems, rules and procedures, in particular for:

- record-keeping (Article 20): may be done in accordance with internal standards, rules and procedures
- currency conversion for financial statements (Article 21): may be done in accordance with usual accounting practices
- guarantees (Article 23): for public law bodies, prefinancing guarantees are not needed
- certificates (Article 24):
 - certificates on the financial statements (CFS): may be provided by their regular internal or external auditors and in accordance with their internal financial regulations and procedures
 - certificates on usual accounting practices (CoMUC): are not needed if those practices are covered by an ex-ante assessment

and use the following specific rules, for:

- recoveries (Article 22): in case of financial support to third parties, there will be no recovery if the participant has done everything possible to retrieve the undue amounts from the third party receiving the support (including legal proceedings) and non-recovery is not due to an error or negligence on its part
- checks, reviews, audits and investigations by the EU (Article 25): will be conducted taking into account the rules and procedures specifically agreed between them and the framework agreement (if any)
- impact evaluation (Article 26): will be conducted in accordance with the participant’s internal rules and procedures and the framework agreement (if any)
- grant agreement suspension (Article 31): certain costs incurred during grant suspension are eligible (notably, minimum costs necessary for a possible resumption of the action and costs relating to contracts which were entered into before the pre-information letter was received and which could not reasonably be suspended, reallocated or terminated on legal grounds)
- grant agreement termination (Article 32): the final grant amount and final payment will be calculated taking into account also costs relating to contracts due for execution only after

termination takes effect, if the contract was entered into before the pre-information letter was received and could not reasonably be terminated on legal grounds

- liability for damages (Article 33.2): the granting authority must be compensated for damage it sustains as a result of the implementation of the action or because the action was not implemented in full compliance with the Agreement only if the damage is due to an infringement of the participant's internal rules and procedures or due to a violation of third parties' rights by the participant or one of its employees or individual for whom the employees are responsible.

Participants whose pillar assessment covers procurement and granting procedures may also do purchases, subcontracting and financial support to third parties (Article 6.2) in accordance with their internal rules and procedures for purchases, subcontracting and financial support.

Participants whose pillar assessment covers data protection rules may rely on their internal standards, rules and procedures for data protection (Article 15).

The participants may however not rely on provisions which would breach the principle of equal treatment of applicants or beneficiaries or call into question the decision awarding the grant, such as in particular:

- eligibility (Article 6)
- consortium roles and set-up (Articles 7-9)
- security and ethics (Articles 13, 14)
- IPR (including background and results, access rights and rights of use), communication, dissemination and visibility (Articles 16 and 17)
- information obligation (Article 19)
- payment, reporting and amendments (Articles 21, 22 and 39)
- rejections, reductions, suspensions and terminations (Articles 27, 28, 29-32)

If the pillar assessment was subject to remedial measures, reliance on the internal systems, rules and procedures is subject to compliance with those remedial measures.

Participants whose assessment has not yet been updated to cover (the new rules on) data protection may rely on their internal systems, rules and procedures, provided that they ensure that personal data is:

- processed lawfully, fairly and in a transparent manner in relation to the data subject
- collected for specified, explicit and legitimate purposes and not further processed in a manner that is incompatible with those purposes
- adequate, relevant and limited to what is necessary in relation to the purposes for which they are processed
- accurate and, where necessary, kept up to date

- kept in a form which permits identification of data subjects for no longer than is necessary for the purposes for which the data is processed and
- processed in a manner that ensures appropriate security of the personal data.

Participants must inform the coordinator without delay of any changes to the systems, rules and procedures that were part of the pillar assessment. The coordinator must immediately inform the granting authority.

Pillar-assessed participants that have also concluded a framework agreement with the EU, may moreover — under the same conditions as those above (i.e. not call into question the decision awarding the grant or breach the principle of equal treatment of applicants or beneficiaries) — rely on provisions set out in that framework agreement.

SECTION 2 RULES FOR CARRYING OUT THE ACTION

ARTICLE 11 — PROPER IMPLEMENTATION OF THE ACTION

11.1 Obligation to properly implement the action

The beneficiaries must implement the action as described in Annex 1 and in compliance with the provisions of the Agreement, the call conditions and all legal obligations under applicable EU, international and national law.

11.2 Consequences of non-compliance

If a beneficiary breaches any of its obligations under this Article, the grant may be reduced (see Article 28).

Such breaches may also lead to other measures described in Chapter 5.

ARTICLE 12 — CONFLICT OF INTERESTS

12.1 Conflict of interests

The beneficiaries must take all measures to prevent any situation where the impartial and objective implementation of the Agreement could be compromised for reasons involving family, emotional life, political or national affinity, economic interest or any other direct or indirect interest ('conflict of interests').

They must formally notify the granting authority without delay of any situation constituting or likely to lead to a conflict of interests and immediately take all the necessary steps to rectify this situation.

The granting authority may verify that the measures taken are appropriate and may require additional measures to be taken by a specified deadline.

12.2 Consequences of non-compliance

If a beneficiary breaches any of its obligations under this Article, the grant may be reduced (see Article 28) and the grant or the beneficiary may be terminated (see Article 32).

Such breaches may also lead to other measures described in Chapter 5.

ARTICLE 13 — CONFIDENTIALITY AND SECURITY

13.1 Sensitive information

The parties must keep confidential any data, documents or other material (in any form) that is identified as sensitive in writing ('sensitive information') — during the implementation of the action and for at least until the time-limit set out in the Data Sheet (see Point 6).

If a beneficiary requests, the granting authority may agree to keep such information confidential for a longer period.

Unless otherwise agreed between the parties, they may use sensitive information only to implement the Agreement.

The beneficiaries may disclose sensitive information to their personnel or other participants involved in the action only if they:

- (a) need to know it in order to implement the Agreement and
- (b) are bound by an obligation of confidentiality.

The granting authority may disclose sensitive information to its staff and to other EU institutions and bodies.

It may moreover disclose sensitive information to third parties, if:

- (a) this is necessary to implement the Agreement or safeguard the EU financial interests and
- (b) the recipients of the information are bound by an obligation of confidentiality.

The confidentiality obligations no longer apply if:

- (a) the disclosing party agrees to release the other party
- (b) the information becomes publicly available, without breaching any confidentiality obligation
- (c) the disclosure of the sensitive information is required by EU, international or national law.

Specific confidentiality rules (if any) are set out in Annex 5.

13.2 Classified information

The parties must handle classified information in accordance with the applicable EU, international or national law on classified information (in particular, Decision 2015/444¹² and its implementing rules).

Deliverables which contain classified information must be submitted according to special procedures agreed with the granting authority.

¹² Commission Decision 2015/444/EC, Euratom of 13 March 2015 on the security rules for protecting EU classified information (OJ L 72, 17.3.2015, p. 53).

Action tasks involving classified information may be subcontracted only after explicit approval (in writing) from the granting authority.

Classified information may not be disclosed to any third party (including participants involved in the action implementation) without prior explicit written approval from the granting authority.

Specific security rules (if any) are set out in Annex 5.

13.3 Consequences of non-compliance

If a beneficiary breaches any of its obligations under this Article, the grant may be reduced (see Article 28).

Such breaches may also lead to other measures described in Chapter 5.

ARTICLE 14 — ETHICS AND VALUES

14.1 Ethics

The action must be carried out in line with the highest ethical standards and the applicable EU, international and national law on ethical principles.

Specific ethics rules (if any) are set out in Annex 5.

14.2 Values

The beneficiaries must commit to and ensure the respect of basic EU values (such as respect for human dignity, freedom, democracy, equality, the rule of law and human rights, including the rights of minorities).

Specific rules on values (if any) are set out in Annex 5.

14.3 Consequences of non-compliance

If a beneficiary breaches any of its obligations under this Article, the grant may be reduced (see Article 28).

Such breaches may also lead to other measures described in Chapter 5.

ARTICLE 15 — DATA PROTECTION

15.1 Data processing by the granting authority

Any personal data under the Agreement will be processed under the responsibility of the data controller of the granting authority in accordance with and for the purposes set out in the Portal Privacy Statement.

For grants where the granting authority is the European Commission, an EU regulatory or executive agency, joint undertaking or other EU body, the processing will be subject to Regulation 2018/1725¹³.

¹³ Regulation (EU) 2018/1725 of the European Parliament and of the Council of 23 October 2018 on the protection of natural persons with regard to the processing of personal data by the Union institutions, bodies, offices and agencies

15.2 Data processing by the beneficiaries

The beneficiaries must process personal data under the Agreement in compliance with the applicable EU, international and national law on data protection (in particular, Regulation 2016/679¹⁴).

They must ensure that personal data is:

- processed lawfully, fairly and in a transparent manner in relation to the data subjects
- collected for specified, explicit and legitimate purposes and not further processed in a manner that is incompatible with those purposes
- adequate, relevant and limited to what is necessary in relation to the purposes for which they are processed
- accurate and, where necessary, kept up to date
- kept in a form which permits identification of data subjects for no longer than is necessary for the purposes for which the data is processed and
- processed in a manner that ensures appropriate security of the data.

The beneficiaries may grant their personnel access to personal data only if it is strictly necessary for implementing, managing and monitoring the Agreement. The beneficiaries must ensure that the personnel is under a confidentiality obligation.

The beneficiaries must inform the persons whose data are transferred to the granting authority and provide them with the Portal Privacy Statement.

15.3 Consequences of non-compliance

If a beneficiary breaches any of its obligations under this Article, the grant may be reduced (see Article 28).

Such breaches may also lead to other measures described in Chapter 5.

ARTICLE 16 — INTELLECTUAL PROPERTY RIGHTS (IPR) — BACKGROUND AND RESULTS — ACCESS RIGHTS AND RIGHTS OF USE

16.1 Background and access rights to background

The beneficiaries must give each other and the other participants access to the background identified as needed for implementing the action, subject to any specific rules in Annex 5.

‘Background’ means any data, know-how or information — whatever its form or nature (tangible or intangible), including any rights such as intellectual property rights — that is:

and on the free movement of such data, and repealing Regulation (EC) No 45/2001 and Decision No 1247/2002/EC (OJ L 295, 21.11.2018, p. 39).

¹⁴ Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (‘GDPR’) (OJ L 119, 4.5.2016, p. 1).

- (a) held by the beneficiaries before they acceded to the Agreement and
- (b) needed to implement the action or exploit the results.

If background is subject to rights of a third party, the beneficiary concerned must ensure that it is able to comply with its obligations under the Agreement.

16.2 Ownership of results

The granting authority does not obtain ownership of the results produced under the action.

‘Results’ means any tangible or intangible effect of the action, such as data, know-how or information, whatever its form or nature, whether or not it can be protected, as well as any rights attached to it, including intellectual property rights.

16.3 Rights of use of the granting authority on materials, documents and information received for policy, information, communication, dissemination and publicity purposes

The granting authority has the right to use non-sensitive information relating to the action and materials and documents received from the beneficiaries (notably summaries for publication, deliverables, as well as any other material, such as pictures or audio-visual material, in paper or electronic form) for policy information, communication, dissemination and publicity purposes — during the action or afterwards.

The right to use the beneficiaries’ materials, documents and information is granted in the form of a royalty-free, non-exclusive and irrevocable licence, which includes the following rights:

- (a) **use for its own purposes** (in particular, making them available to persons working for the granting authority or any other EU service (including institutions, bodies, offices, agencies, etc.) or EU Member State institution or body; copying or reproducing them in whole or in part, in unlimited numbers; and communication through press information services)
- (b) **distribution to the public** (in particular, publication as hard copies and in electronic or digital format, publication on the internet, as a downloadable or non-downloadable file, broadcasting by any channel, public display or presentation, communicating through press information services, or inclusion in widely accessible databases or indexes)
- (c) **editing or redrafting** (including shortening, summarising, inserting other elements (e.g. meta-data, legends, other graphic, visual, audio or text elements), extracting parts (e.g. audio or video files), dividing into parts, use in a compilation)
- (d) **translation**
- (e) **storage** in paper, electronic or other form
- (f) **archiving**, in line with applicable document-management rules
- (g) the right to authorise **third parties** to act on its behalf or sub-license to third parties the modes of use set out in Points (b), (c), (d) and (f), if needed for the information, communication and publicity activity of the granting authority and

- (h) **processing**, analysing, aggregating the materials, documents and information received and **producing derivative works**.

The rights of use are granted for the whole duration of the industrial or intellectual property rights concerned.

If materials or documents are subject to moral rights or third party rights (including intellectual property rights or rights of natural persons on their image and voice), the beneficiaries must ensure that they comply with their obligations under this Agreement (in particular, by obtaining the necessary licences and authorisations from the rights holders concerned).

Where applicable, the granting authority will insert the following information:

“© – [year] – [name of the copyright owner]. All rights reserved. Licensed to the [name of granting authority] under conditions.”

16.4 Specific rules on IPR, results and background

Specific rules regarding intellectual property rights, results and background (if any) are set out in Annex 5.

16.5 Consequences of non-compliance

If a beneficiary breaches any of its obligations under this Article, the grant may be reduced (see Article 28).

Such a breach may also lead to other measures described in Chapter 5.

ARTICLE 17 — COMMUNICATION, DISSEMINATION AND VISIBILITY

17.1 Communication — Dissemination — Promoting the action

Unless otherwise agreed with the granting authority, the beneficiaries must promote the action and its results by providing targeted information to multiple audiences (including the media and the public), in accordance with Annex 1 and in a strategic, coherent and effective manner.

Before engaging in a communication or dissemination activity expected to have a major media impact, the beneficiaries must inform the granting authority.

17.2 Visibility — European flag and funding statement

Unless otherwise agreed with the granting authority, communication activities of the beneficiaries related to the action (including media relations, conferences, seminars, information material, such as brochures, leaflets, posters, presentations, etc., in electronic form, via traditional or social media, etc.), dissemination activities and any infrastructure, equipment, vehicles, supplies or major result funded by the grant must acknowledge the EU support and display the European flag (emblem) and funding statement (translated into local languages, where appropriate):

Funded by the
European Union

Co-funded by the
European Union

Funded by the
European Union

Co-funded by the
European Union

The emblem must remain distinct and separate and cannot be modified by adding other visual marks, brands or text.

Apart from the emblem, no other visual identity or logo may be used to highlight the EU support.

When displayed in association with other logos (e.g. of beneficiaries or sponsors), the emblem must be displayed at least as prominently and visibly as the other logos.

For the purposes of their obligations under this Article, the beneficiaries may use the emblem without first obtaining approval from the granting authority. This does not, however, give them the right to exclusive use. Moreover, they may not appropriate the emblem or any similar trademark or logo, either by registration or by any other means.

17.3 Quality of information — Disclaimer

Any communication or dissemination activity related to the action must use factually accurate information.

Moreover, it must indicate the following disclaimer (translated into local languages where appropriate):

“Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or [name of the granting authority]. Neither the European Union nor the granting authority can be held responsible for them.”

17.4 Specific communication, dissemination and visibility rules

Specific communication, dissemination and visibility rules (if any) are set out in Annex 5.

17.5 Consequences of non-compliance

If a beneficiary breaches any of its obligations under this Article, the grant may be reduced (see Article 28).

Such breaches may also lead to other measures described in Chapter 5.

ARTICLE 18 — SPECIFIC RULES FOR CARRYING OUT THE ACTION

Not applicable

SECTION 3 GRANT ADMINISTRATION

ARTICLE 19 — GENERAL INFORMATION OBLIGATIONS

19.1 Information requests

The beneficiaries must provide — during the action or afterwards and in accordance with Article 7 — any information requested in order to verify eligibility of the lump sum contributions declared, proper implementation of the action and compliance with the other obligations under the Agreement.

The information provided must be accurate, precise and complete and in the format requested, including electronic format.

19.2 Participant Register data updates

The beneficiaries must keep — at all times, during the action or afterwards — their information stored in the Portal Participant Register up to date, in particular, their name, address, legal representatives, legal form and organisation type.

19.3 Information about events and circumstances which impact the action

The beneficiaries must immediately inform the granting authority (and the other beneficiaries) of any of the following:

- (a) **events** which are likely to affect or delay the implementation of the action or affect the EU's financial interests, in particular:
 - (i) changes in their legal, financial, technical, organisational or ownership situation (including changes linked to one of the exclusion grounds listed in the declaration of honour signed before grant signature)
 - (ii) linked action information: not applicable
- (b) **circumstances** affecting:
 - (i) the decision to award the grant or
 - (ii) compliance with requirements under the Agreement.

19.4 Consequences of non-compliance

If a beneficiary breaches any of its obligations under this Article, the grant may be reduced (see Article 28).

Such breaches may also lead to other measures described in Chapter 5.

ARTICLE 20 — RECORD-KEEPING

20.1 Keeping records and supporting documents

The beneficiaries must — at least until the time-limit set out in the Data Sheet (see Point 6) — keep records and other supporting documents to prove the proper implementation of the action (proper implementation of the work and/or achievement of the results as described in Annex 1) in line with the accepted standards in the respective field (if any); beneficiaries do not need to keep specific records on the actual costs incurred.

The records and supporting documents must be made available upon request (see Article 19) or in the context of checks, reviews, audits or investigations (see Article 25).

If there are on-going checks, reviews, audits, investigations, litigation or other pursuits of claims under the Agreement (including the extension of findings; see Article 25), the beneficiaries must keep these records and other supporting documentation until the end of these procedures.

The beneficiaries must keep the original documents. Digital and digitalised documents are considered originals if they are authorised by the applicable national law. The granting authority may accept non-original documents if they offer a comparable level of assurance.

20.2 Consequences of non-compliance

If a beneficiary breaches any of its obligations under this Article, lump sum contributions insufficiently substantiated will be ineligible (see Article 6) and will be rejected (see Article 27), and the grant may be reduced (see Article 28).

Such breaches may also lead to other measures described in Chapter 5.

ARTICLE 21 — REPORTING

21.1 Continuous reporting

The beneficiaries must continuously report on the progress of the action (e.g. **deliverables, milestones, outputs/outcomes, critical risks, indicators**, etc; if any), in the Portal Continuous Reporting tool and in accordance with the timing and conditions it sets out (as agreed with the granting authority).

Standardised deliverables (e.g. progress reports not linked to payments, reports on cumulative expenditure, special reports, etc; if any) must be submitted using the templates published on the Portal.

21.2 Periodic reporting: Technical reports and financial statements

In addition, the beneficiaries must provide reports to request payments, in accordance with the schedule and modalities set out in the Data Sheet (see Point 4.2):

- for additional prefinancings (if any): **an additional prefinancing report**
- for interim payments (if any) and the final payment: a **periodic report**

The prefinancing and periodic reports include a technical and financial part.

The technical part includes an overview of the action implementation. It must be prepared using the template available in the Portal Periodic Reporting tool.

The financial part of the additional prefinancing report includes a statement on the use of the previous prefinancing payment.

The financial part of the periodic report includes:

- the financial statement (consolidated statement for the consortium)
- the explanation on the use of resources (or detailed cost reporting table): not applicable
- the certificates on the financial statements (CFS): not applicable.

The **financial statement** must contain the lump sum contributions indicated in Annex 2, for the work packages that were completed during the reporting period.

For the last reporting period, the beneficiaries may exceptionally also declare partial lump sum contributions for work packages that were not completed (e.g. due to force majeure or technical impossibility).

Lump sum contributions which are not declared in a financial statement will not be taken into account by the granting authority.

By signing the financial statement (directly in the Portal Periodic Reporting tool), the coordinator confirms (on behalf of the consortium) that:

- the information provided is complete, reliable and true
- the lump sum contributions declared are eligible (in particular, the work packages have been completed, that the work has been properly implemented and/or the results were achieved in accordance with Annex 1; see Article 6)
- the proper implementation and/or achievement can be substantiated by adequate records and supporting documents (see Article 20) that will be produced upon request (see Article 19) or in the context of checks, reviews, audits and investigations (see Article 25).

In case of recoveries (see Article 22), beneficiaries will be held responsible also for the lump sum contributions declared for their affiliated entities (if any).

21.3 Currency for financial statements and conversion into euros

The financial statements must be drafted in euro.

21.4 Reporting language

The reporting must be in the language of the Agreement, unless otherwise agreed with the granting authority (see Data Sheet, Point 4.2).

21.5 Consequences of non-compliance

If a report submitted does not comply with this Article, the granting authority may suspend the payment deadline (see Article 29) and apply other measures described in Chapter 5.

If the coordinator breaches its reporting obligations, the granting authority may terminate the grant or the coordinator's participation (see Article 32) or apply other measures described in Chapter 5.

ARTICLE 22 — PAYMENTS AND RECOVERIES — CALCULATION OF AMOUNTS DUE

22.1 Payments and payment arrangements

Payments will be made in accordance with the schedule and modalities set out in the Data Sheet (see Point 4.2).

They will be made in euro to the bank account indicated by the coordinator (see Data Sheet, Point 4.2) and must be distributed without unjustified delay (restrictions may apply to distribution of the initial prefinancing payment; see Data Sheet, Point 4.2).

Payments to this bank account will discharge the granting authority from its payment obligation.

The cost of payment transfers will be borne as follows:

- the granting authority bears the cost of transfers charged by its bank
- the beneficiary bears the cost of transfers charged by its bank
- the party causing a repetition of a transfer bears all costs of the repeated transfer.

Payments by the granting authority will be considered to have been carried out on the date when they are debited to its account.

22.2 Recoveries

Recoveries will be made, if — at beneficiary termination, final payment or afterwards — it turns out that the granting authority has paid too much and needs to recover the amounts undue.

The general liability regime for recoveries (first-line liability) is as follows: At final payment, the coordinator will be fully liable for recoveries, even if it has not been the final recipient of the undue amounts. At beneficiary termination or after final payment, recoveries will be made directly against the beneficiaries concerned.

Beneficiaries will be fully liable for repaying the debts of their affiliated entities.

In case of enforced recoveries (see Article 22.4):

- the beneficiaries will be jointly and severally liable for repaying debts of another beneficiary

under the Agreement (including late-payment interest), if required by the granting authority (see Data Sheet, Point 4.4)

- affiliated entities will be held liable for repaying debts of their beneficiaries under the Agreement (including late-payment interest), if required by the granting authority (see Data Sheet, Point 4.4).

22.3 Amounts due

22.3.1 Prefinancing payments

The aim of the prefinancing is to provide the beneficiaries with a float.

It remains the property of the EU until the final payment.

For **initial prefinancings** (if any), the amount due, schedule and modalities are set out in the Data Sheet (see Point 4.2).

For **additional prefinancings** (if any), the amount due, schedule and modalities are also set out in the Data Sheet (see Point 4.2). However, if the statement on the use of the previous prefinancing payment shows that less than 70% was used, the amount set out in the Data Sheet will be reduced by the difference between the 70% threshold and the amount used.

Prefinancing payments (or parts of them) may be offset (without the beneficiaries' consent) against amounts owed by a beneficiary to the granting authority — up to the amount due to that beneficiary.

For grants where the granting authority is the European Commission or an EU executive agency, offsetting may also be done against amounts owed to other Commission services or executive agencies.

Payments will not be made if the payment deadline or payments are suspended (see Articles 29 and 30).

22.3.2 Amount due at beneficiary termination — Recovery

In case of beneficiary termination, the granting authority will determine the provisional amount due for the beneficiary concerned.

This will be done on the basis of work packages already completed in previous interim payments. Payments for ongoing/not yet completed work packages which the beneficiary was working on before termination (if any) will therefore be made only later on, with the next interim or final payments when those work packages have been completed.

The **amount due** will be calculated in the following step:

Step 1 — Calculation of the total accepted EU contribution

Step 1 — Calculation of the total accepted EU contribution

The granting authority will first calculate the 'accepted EU contribution' for the beneficiary, on the basis of the beneficiary's lump sum contributions for the work packages which were approved in previous interim payments.

After that, the granting authority will take into account grant reductions (if any). The resulting amount is the ‘total accepted EU contribution’ for the beneficiary.

The **balance** is then calculated by deducting the payments received (if any; see report on the distribution of payments in Article 32), from the total accepted EU contribution:

$$\begin{aligned} & \{\text{total accepted EU contribution for the beneficiary} \\ & \text{minus} \\ & \{\text{prefinancing and interim payments received (if any)}\} \}. \end{aligned}$$

If the balance is **negative**, it will be **recovered** in accordance with the following procedure:

The granting authority will send a **pre-information letter** to the beneficiary concerned:

- formally notifying the intention to recover, the amount due, the amount to be recovered and the reasons why and
- requesting observations within 30 days of receiving notification.

If no observations are submitted (or the granting authority decides to pursue recovery despite the observations it has received), it will confirm the amount to be recovered and ask this amount to be paid to the coordinator (**confirmation letter**).

22.3.3 Interim payments

Interim payments reimburse the eligible lump sum contributions claimed for work packages implemented during the reporting periods (if any).

Interim payments (if any) will be made in accordance with the schedule and modalities set out the Data Sheet (see Point 4.2).

Payment is subject to the approval of the periodic report and the work packages declared. Their approval does not imply recognition of compliance, authenticity, completeness or correctness of their content.

Incomplete work packages and work packages that have not been delivered or cannot be approved will be rejected (see Article 27).

The **interim payment** will be calculated by the granting authority in the following steps:

Step 1 — Calculation of the total accepted EU contribution

Step 2 — Limit to the interim payment ceiling

Step 1 — Calculation of the total accepted EU contribution

The granting authority will first calculate the ‘accepted EU contribution’ for the action for the reporting period, by calculating the lump sum contributions for the approved work packages.

After that, the granting authority will take into account grant reductions from beneficiary termination (if any). The resulting amount is the ‘total accepted EU contribution’.

Step 2 — Limit to the interim payment ceiling

The resulting amount is then capped to ensure that the total amount of prefinancing and interim payments (if any) does not exceed the interim payment ceiling set out in the Data Sheet (see Point 4.2).

Interim payments (or parts of them) may be offset (without the beneficiaries' consent) against amounts owed by a beneficiary to the granting authority — up to the amount due to that beneficiary.

For grants where the granting authority is the European Commission or an EU executive agency, offsetting may also be done against amounts owed to other Commission services or executive agencies.

Payments will not be made if the payment deadline or payments are suspended (see Articles 29 and 30).

22.3.4 Final payment — Final grant amount — Revenues and Profit — Recovery

The final payment (payment of the balance) reimburses the remaining eligible lump sum contributions claimed for the implemented work packages (if any).

The final payment will be made in accordance with the schedule and modalities set out in the Data Sheet (see Point 4.2).

Payment is subject to the approval of the final periodic report and the work packages declared. Their approval does not imply recognition of compliance, authenticity, completeness or correctness of their content.

Work packages (or parts of them) that have not been delivered or cannot be approved will be rejected (see Article 27).

The **final grant amount for the action** will be calculated in the following steps:

Step 1 — Calculation of the total accepted EU contribution

Step 2 — Limit to the maximum grant amount

Step 3 — Reduction due to the no-profit rule

Step 1 — Calculation of the total accepted EU contribution

The granting authority will first calculate the 'accepted EU contribution' for the action for all reporting periods, by calculating the lump sum contributions for the approved work packages.

After that, the granting authority will take into account grant reductions (if any). The resulting amount is the 'total accepted EU contribution'.

Step 2 — Limit to the maximum grant amount

Not applicable

Step 3 — Reduction due to the no-profit rule

Not applicable

The **balance** (final payment) is then calculated by deducting the total amount of prefinancing and interim payments already made (if any), from the final grant amount:

$$\begin{aligned} &\{\text{final grant amount} \\ &\text{minus} \\ &\{\text{prefinancing and interim payments made (if any)}\}\}. \end{aligned}$$

If the balance is **positive**, it will be **paid** to the coordinator.

The final payment (or part of it) may be offset (without the beneficiaries' consent) against amounts owed by a beneficiary to the granting authority — up to the amount due to that beneficiary.

For grants where the granting authority is the European Commission or an EU executive agency, offsetting may also be done against amounts owed to other Commission services or executive agencies.

Payments will not be made if the payment deadline or payments are suspended (see Articles 29 and 30).

If the balance is **negative**, it will be **recovered** in accordance with the following procedure:

The granting authority will send a **pre-information letter** to the coordinator:

- formally notifying the intention to recover, the final grant amount, the amount to be recovered and the reasons why
- requesting observations within 30 days of receiving notification.

If no observations are submitted (or the granting authority decides to pursue recovery despite the observations it has received), it will confirm the amount to be recovered (**confirmation letter**), together with a **debit note** with the terms and date for payment.

If payment is not made by the date specified in the debit note, the granting authority will **enforce recovery** in accordance with Article 22.4.

22.3.5 Audit implementation after final payment — Revised final grant amount — Recovery

If — after the final payment (in particular, after checks, reviews, audits or investigations; see Article 25) — the granting authority rejects lump sum contributions (see Article 27) or reduces the grant (see Article 28), it will calculate the **revised final grant amount** for the beneficiary concerned.

The **beneficiary revised final grant amount** will be calculated in the following step:

Step 1 — Calculation of the revised total accepted EU contribution

Step 1 — Calculation of the revised total accepted EU contribution

The granting authority will first calculate the 'revised accepted EU contribution' for the beneficiary, by calculating the 'revised accepted contributions'.

After that, it will take into account grant reductions (if any). The resulting 'revised total accepted EU contribution' is the beneficiary revised final grant amount.

If the revised final grant amount is lower than the beneficiary's final grant amount (i.e. its share in the final grant amount for the action), it will be **recovered** in accordance with the following procedure:

The **beneficiary final grant amount** (i.e. share in the final grant amount for the action) is calculated as follows:

$$\left\{ \begin{array}{l} \text{total accepted EU contribution for the beneficiary} \\ \text{divided by} \\ \text{total accepted EU contribution for the action} \end{array} \right\} \times \text{final grant amount for the action}.$$

The granting authority will send a **pre-information letter** to the beneficiary concerned:

- formally notifying the intention to recover, the amount to be recovered and the reasons why and
- requesting observations within 30 days of receiving notification.

If no observations are submitted (or the granting authority decides to pursue recovery despite the observations it has received), it will confirm the amount to be recovered (**confirmation letter**), together with a **debit note** with the terms and the date for payment.

Recoveries against affiliated entities (if any) will be handled through their beneficiaries.

If payment is not made by the date specified in the debit note, the granting authority will **enforce recovery** in accordance with Article 22.4.

22.4 Enforced recovery

If payment is not made by the date specified in the debit note, the amount due will be recovered:

- (a) by offsetting the amount — without the coordinator or beneficiary's consent — against any amounts owed to the coordinator or beneficiary by the granting authority.

In exceptional circumstances, to safeguard the EU financial interests, the amount may be offset before the payment date specified in the debit note.

For grants where the granting authority is the European Commission or an EU executive agency, debts may also be offset against amounts owed by other Commission services or executive agencies.

- (b) by drawing on the financial guarantee(s) (if any)
- (c) by holding other beneficiaries jointly and severally liable (if any; see Data Sheet, Point 4.4)
- (d) by holding affiliated entities jointly and severally liable (if any, see Data Sheet, Point 4.4)
- (e) by taking legal action (see Article 43) or, provided that the granting authority is the European Commission or an EU executive agency, by adopting an enforceable decision under Article 299 of the Treaty on the Functioning of the EU (TFEU) and Article 100(2) of EU Financial Regulation 2018/1046.

The amount to be recovered will be increased by **late-payment interest** at the rate set out in Article 23.5, from the day following the payment date in the debit note, up to and including the date the full payment is received.

Partial payments will be first credited against expenses, charges and late-payment interest and then against the principal.

Bank charges incurred in the recovery process will be borne by the beneficiary, unless Directive 2015/2366¹⁵ applies.

For grants where the granting authority is an EU executive agency, enforced recovery by offsetting or enforceable decision will be done by the services of the European Commission (see also Article 43).

22.5 Consequences of non-compliance

22.5.1 If the granting authority does not pay within the payment deadlines (see above), the beneficiaries are entitled to **late-payment interest** at the reference rate applied by the European Central Bank (ECB) for its main refinancing operations in euros, plus the percentage specified in the Data Sheet (Point 4.2). The ECB reference rate to be used is the rate in force on the first day of the month in which the payment deadline expires, as published in the C series of the *Official Journal of the European Union*.

If the late-payment interest is lower than or equal to EUR 200, it will be paid to the coordinator only on request submitted within two months of receiving the late payment.

Late-payment interest is not due if all beneficiaries are EU Member States (including regional and local government authorities or other public bodies acting on behalf of a Member State for the purpose of this Agreement).

If payments or the payment deadline are suspended (see Articles 29 and 30), payment will not be considered as late.

Late-payment interest covers the period running from the day following the due date for payment (see above), up to and including the date of payment.

Late-payment interest is not considered for the purposes of calculating the final grant amount.

22.5.2 If the coordinator breaches any of its obligations under this Article, the grant may be reduced (see Article 29) and the grant or the coordinator may be terminated (see Article 32).

Such breaches may also lead to other measures described in Chapter 5.

ARTICLE 23 — GUARANTEES

23.1 Prefinancing guarantee

If required by the granting authority (see Data Sheet, Point 4.2), the beneficiaries must provide (one

¹⁵ Directive (EU) 2015/2366 of the European Parliament and of the Council of 25 November 2015 on payment services in the internal market, amending Directives 2002/65/EC, 2009/110/EC and 2013/36/EU and Regulation (EU) No 1093/2010, and repealing Directive 2007/64/EC (OJ L 337, 23.12.2015, p. 35).

or more) prefinancing guarantee(s) in accordance with the timing and the amounts set out in the Data Sheet.

The coordinator must submit them to the granting authority in due time before the prefinancing they are linked to.

The guarantees must be drawn up using the template published on the Portal and fulfil the following conditions:

- (a) be provided by a bank or approved financial institution established in the EU or — if requested by the coordinator and accepted by the granting authority — by a third party or a bank or financial institution established outside the EU offering equivalent security
- (b) the guarantor stands as first-call guarantor and does not require the granting authority to first have recourse against the principal debtor (i.e. the beneficiary concerned) and
- (c) remain explicitly in force until the final payment and, if the final payment takes the form of a recovery, until five months after the debit note is notified to a beneficiary.

They will be released within the following month.

23.2 Consequences of non-compliance

If the beneficiaries breach their obligation to provide the prefinancing guarantee, the prefinancing will not be paid.

Such breaches may also lead to other measures described in Chapter 5.

ARTICLE 24 — CERTIFICATES

Not applicable

ARTICLE 25 — CHECKS, REVIEWS, AUDITS AND INVESTIGATIONS — EXTENSION OF FINDINGS

25.1 Granting authority checks, reviews and audits

25.1.1 Internal checks

The granting authority may — during the action or afterwards — check the proper implementation of the action and compliance with the obligations under the Agreement, including assessing lump sum contributions, deliverables and reports.

25.1.2 Project reviews

The granting authority may carry out reviews on the proper implementation of the action and compliance with the obligations under the Agreement (general project reviews or specific issues reviews).

Such project reviews may be started during the implementation of the action and until the time-limit set out in the Data Sheet (see Point 6). They will be formally notified to the coordinator or beneficiary concerned and will be considered to start on the date of the notification.

If needed, the granting authority may be assisted by independent, outside experts. If it uses outside experts, the coordinator or beneficiary concerned will be informed and have the right to object on grounds of commercial confidentiality or conflict of interest.

The coordinator or beneficiary concerned must cooperate diligently and provide — within the deadline requested — any information and data in addition to deliverables and reports already submitted. The granting authority may request beneficiaries to provide such information to it directly. Sensitive information and documents will be treated in accordance with Article 13.

The coordinator or beneficiary concerned may be requested to participate in meetings, including with the outside experts.

For **on-the-spot visits**, the beneficiary concerned must allow access to sites and premises (including to the outside experts) and must ensure that information requested is readily available.

Information provided must be accurate, precise and complete and in the format requested, including electronic format.

On the basis of the review findings, a **project review report** will be drawn up.

The granting authority will formally notify the project review report to the coordinator or beneficiary concerned, which has 30 days from receiving notification to make observations.

Project reviews (including project review reports) will be in the language of the Agreement.

25.1.3 Audits

The granting authority may carry out audits on the proper implementation of the action and compliance with the obligations under the Agreement.

Such audits may be started during the implementation of the action and until the time-limit set out in the Data Sheet (see Point 6). They will be formally notified to the beneficiary concerned and will be considered to start on the date of the notification.

The granting authority may use its own audit service, delegate audits to a centralised service or use external audit firms. If it uses an external firm, the beneficiary concerned will be informed and have the right to object on grounds of commercial confidentiality or conflict of interest.

The beneficiary concerned must cooperate diligently and provide — within the deadline requested — any information (including complete accounts, individual salary statements or other personal data) to verify compliance with the Agreement. Sensitive information and documents will be treated in accordance with Article 13.

For **on-the-spot** visits, the beneficiary concerned must allow access to sites and premises (including for the external audit firm) and must ensure that information requested is readily available.

Information provided must be accurate, precise and complete and in the format requested, including electronic format.

On the basis of the audit findings, a **draft audit report** will be drawn up.

The auditors will formally notify the draft audit report to the beneficiary concerned, which has 30 days from receiving notification to make observations (contradictory audit procedure).

The **final audit report** will take into account observations by the beneficiary concerned and will be formally notified to them.

Audits (including audit reports) will be in the language of the Agreement.

25.2 European Commission checks, reviews and audits in grants of other granting authorities

Where the granting authority is not the European Commission, the latter has the same rights of checks, reviews and audits as the granting authority.

25.3 Access to records for assessing simplified forms of funding

The beneficiaries must give the European Commission access to their statutory records for the periodic assessment of simplified forms of funding which are used in EU programmes.

25.4 OLAF, EPPO and ECA audits and investigations

The following bodies may also carry out checks, reviews, audits and investigations — during the action or afterwards:

- the European Anti-Fraud Office (OLAF) under Regulations No 883/2013¹⁶ and No 2185/96¹⁷
- the European Public Prosecutor's Office (EPPO) under Regulation 2017/1939
- the European Court of Auditors (ECA) under Article 287 of the Treaty on the Functioning of the EU (TFEU) and Article 257 of EU Financial Regulation 2018/1046.

If requested by these bodies, the beneficiary concerned must provide full, accurate and complete information in the format requested (including complete accounts, individual salary statements or other personal data, including in electronic format) and allow access to sites and premises for on-the-spot visits or inspections — as provided for under these Regulations.

To this end, the beneficiary concerned must keep all relevant information relating to the action, at least until the time-limit set out in the Data Sheet (Point 6) and, in any case, until any ongoing checks, reviews, audits, investigations, litigation or other pursuits of claims have been concluded.

25.5 Consequences of checks, reviews, audits and investigations — Extension of findings

25.5.1 Consequences of checks, reviews, audits and investigations in this grant

Findings in checks, reviews, audits or investigations carried out in the context of this grant may lead to rejections (see Article 27), grant reduction (see Article 28) or other measures described in Chapter 5.

¹⁶ Regulation (EU, Euratom) No 883/2013 of the European Parliament and of the Council of 11 September 2013 concerning investigations conducted by the European Anti-Fraud Office (OLAF) and repealing Regulation (EC) No 1073/1999 of the European Parliament and of the Council and Council Regulation (Euratom) No 1074/1999 (OJ L 248, 18/09/2013, p. 1).

¹⁷ Council Regulation (Euratom, EC) No 2185/1996 of 11 November 1996 concerning on-the-spot checks and inspections carried out by the Commission in order to protect the European Communities' financial interests against fraud and other irregularities (OJ L 292, 15/11/1996, p. 2).

Rejections or grant reductions after the final payment will lead to a revised final grant amount (see Article 22).

Findings in checks, reviews, audits or investigations during the action implementation may lead to a request for amendment (see Article 39), to change the description of the action set out in Annex 1.

Checks, reviews, audits or investigations that find systemic or recurrent errors, irregularities, fraud or breach of obligations in any EU grant may also lead to consequences in other EU grants awarded under similar conditions ('extension to other grants').

Moreover, findings arising from an OLAF or EPPO investigation may lead to criminal prosecution under national law.

25.5.2 Extension from other grants

Findings of checks, reviews, audits or investigations in other grants may be extended to this grant, if:

- (a) the beneficiary concerned is found, in other EU grants awarded under similar conditions, to have committed systemic or recurrent errors, irregularities, fraud or breach of obligations that have a material impact on this grant and
- (b) those findings are formally notified to the beneficiary concerned — together with the list of grants affected by the findings — within the time-limit for audits set out in the Data Sheet (see Point 6).

The granting authority will formally notify the beneficiary concerned of the intention to extend the findings and the list of grants affected.

If the extension concerns **rejections of lump sum contributions**: the notification will include:

- (a) an invitation to submit observations on the list of grants affected by the findings
- (b) the request to submit revised financial statements for all grants affected
- (c) the correction rate for extrapolation, established on the basis of the systemic or recurrent errors, to calculate the amounts to be rejected, if the beneficiary concerned:
 - (i) considers that the submission of revised financial statements is not possible or practicable or
 - (ii) does not submit revised financial statements.

If the extension concerns **grant reductions**: the notification will include:

- (a) an invitation to submit observations on the list of grants affected by the findings and
- (b) the **correction rate for extrapolation**, established on the basis of the systemic or recurrent errors and the principle of proportionality.

The beneficiary concerned has **60 days** from receiving notification to submit observations, revised financial statements or to propose a duly substantiated **alternative correction method/rate**.

On the basis of this, the granting authority will analyse the impact and decide on the implementation

(i.e. start rejection or grant reduction procedures, either on the basis of the revised financial statements or the announced/alternative method/rate or a mix of those; see Articles 27 and 28).

25.6 Consequences of non-compliance

If a beneficiary breaches any of its obligations under this Article, lump sum contributions insufficiently substantiated will be ineligible (see Article 6) and will be rejected (see Article 27), and the grant may be reduced (see Article 28).

Such breaches may also lead to other measures described in Chapter 5.

ARTICLE 26 — IMPACT EVALUATIONS

26.1 Impact evaluation

The granting authority may carry out impact evaluations of the action, measured against the objectives and indicators of the EU programme funding the grant.

Such evaluations may be started during implementation of the action and until the time-limit set out in the Data Sheet (see Point 6). They will be formally notified to the coordinator or beneficiaries and will be considered to start on the date of the notification.

If needed, the granting authority may be assisted by independent outside experts.

The coordinator or beneficiaries must provide any information relevant to evaluate the impact of the action, including information in electronic format.

26.2 Consequences of non-compliance

If a beneficiary breaches any of its obligations under this Article, the granting authority may apply the measures described in Chapter 5.

CHAPTER 5 CONSEQUENCES OF NON-COMPLIANCE

SECTION 1 REJECTIONS AND GRANT REDUCTION

ARTICLE 27 — REJECTION OF CONTRIBUTIONS

27.1 Conditions

The granting authority will — at interim payment, final payment or afterwards — reject any lump sum contributions which are ineligible (see Article 6), in particular following checks, reviews, audits or investigations (see Article 25).

The rejection may also be based on the extension of findings from other grants to this grant (see Article 25).

Ineligible lump sum contributions will be rejected.

27.2 Procedure

If the rejection does not lead to a recovery, the granting authority will formally notify the coordinator or beneficiary concerned of the rejection, the amounts and the reasons why. The coordinator or beneficiary concerned may — within 30 days of receiving notification — submit observations if it disagrees with the rejection (payment review procedure).

If the rejection leads to a recovery, the granting authority will follow the contradictory procedure with pre-information letter set out in Article 22.

27.3 Effects

If the granting authority rejects lump sum contributions, it will deduct them from the lump sum contributions declared and then calculate the amount due (and, if needed, make a recovery; see Article 22).

ARTICLE 28 — GRANT REDUCTION

28.1 Conditions

The granting authority may — at beneficiary termination, final payment or afterwards — reduce the grant for a beneficiary, if:

- (a) the beneficiary (or a person having powers of representation, decision-making or control, or person essential for the award/implementation of the grant) has committed:
 - (i) substantial errors, irregularities or fraud or
 - (ii) serious breach of obligations under this Agreement or during its award (including improper implementation of the action, non-compliance with the call conditions, submission of false information, failure to provide required information, breach of ethics or security rules (if applicable), etc.), or
- (b) the beneficiary (or a person having powers of representation, decision-making or control, or person essential for the award/implementation of the grant) has committed — in other EU grants awarded to it under similar conditions — systemic or recurrent errors, irregularities, fraud or serious breach of obligations that have a material impact on this grant (extension of findings; see Article 25.5).

The amount of the reduction will be calculated for each beneficiary concerned and proportionate to the seriousness and the duration of the errors, irregularities or fraud or breach of obligations, by applying an individual reduction rate to their accepted EU contribution.

28.2 Procedure

If the grant reduction does not lead to a recovery, the granting authority will formally notify the coordinator or beneficiary concerned of the reduction, the amount to be reduced and the reasons why. The coordinator or beneficiary concerned may — within 30 days of receiving notification — submit observations if it disagrees with the reduction (payment review procedure).

If the grant reduction leads to a recovery, the granting authority will follow the contradictory procedure with pre-information letter set out in Article 22.

28.3 Effects

If the granting authority reduces the grant, it will deduct the reduction and then calculate the amount due (and, if needed, make a recovery; see Article 22).

SECTION 2 — SUSPENSION AND TERMINATION

ARTICLE 29 — PAYMENT DEADLINE SUSPENSION

29.1 Conditions

The granting authority may — at any moment — suspend the payment deadline if a payment cannot be processed because:

- (a) the required report (see Article 21) has not been submitted or is not complete or additional information is needed
- (b) there are doubts about the amount to be paid (e.g. ongoing extension procedure, queries about eligibility, need for a grant reduction, etc.) and additional checks, reviews, audits or investigations are necessary, or
- (c) there are other issues affecting the EU financial interests.

29.2 Procedure

The granting authority will formally notify the coordinator of the suspension and the reasons why.

The suspension will **take effect** the day the notification is sent.

If the conditions for suspending the payment deadline are no longer met, the suspension will be **lifted** — and the remaining time to pay (see Data Sheet, Point 4.2) will resume.

If the suspension exceeds two months, the coordinator may request the granting authority to confirm if the suspension will continue.

If the payment deadline has been suspended due to the non-compliance of the report and the revised report is not submitted (or was submitted but is also rejected), the granting authority may also terminate the grant or the participation of the coordinator (see Article 32).

ARTICLE 30 — PAYMENT SUSPENSION

30.1 Conditions

The granting authority may — at any moment — suspend payments, in whole or in part for one or more beneficiaries, if:

- (a) a beneficiary (or a person having powers of representation, decision-making or control, or

person essential for the award/implementation of the grant) has committed or is suspected of having committed:

- (i) substantial errors, irregularities or fraud or
 - (ii) serious breach of obligations under this Agreement or during its award (including improper implementation of the action, non-compliance with the call conditions, submission of false information, failure to provide required information, breach of ethics or security rules (if applicable), etc.), or
- (b) a beneficiary (or a person having powers of representation, decision-making or control, or person essential for the award/implementation of the grant) has committed — in other EU grants awarded to it under similar conditions — systemic or recurrent errors, irregularities, fraud or serious breach of obligations that have a material impact on this grant (extension of findings; see Article 25.5).

If payments are suspended for one or more beneficiaries, the granting authority will make partial payment(s) for the part(s) not suspended. If suspension concerns the final payment, the payment (or recovery) of the remaining amount after suspension is lifted will be considered to be the payment that closes the action.

30.2 Procedure

Before suspending payments, the granting authority will send a **pre-information letter** to the beneficiary concerned:

- formally notifying the intention to suspend payments and the reasons why and
- requesting observations within 30 days of receiving notification.

If the granting authority does not receive observations or decides to pursue the procedure despite the observations it has received, it will confirm the suspension (**confirmation letter**). Otherwise, it will formally notify that the procedure is discontinued.

At the end of the suspension procedure, the granting authority will also inform the coordinator.

The suspension will **take effect** the day after the confirmation notification is sent.

If the conditions for resuming payments are met, the suspension will be **lifted**. The granting authority will formally notify the beneficiary concerned (and the coordinator) and set the suspension end date.

During the suspension, no prefinancing will be paid to the beneficiaries concerned. For interim payments, the periodic reports for all reporting periods except the last one (see Article 21) must not contain any financial statements from the beneficiary concerned (or its affiliated entities). The coordinator must include them in the next periodic report after the suspension is lifted or — if suspension is not lifted before the end of the action — in the last periodic report.

ARTICLE 31 — GRANT AGREEMENT SUSPENSION

31.1 Consortium-requested GA suspension

31.1.1 Conditions and procedure

The beneficiaries may request the suspension of the grant or any part of it, if exceptional circumstances — in particular *force majeure* (see Article 35) — make implementation impossible or excessively difficult.

The coordinator must submit a request for **amendment** (see Article 39), with:

- the reasons why
- the date the suspension takes effect; this date may be before the date of the submission of the amendment request and
- the expected date of resumption.

The suspension will **take effect** on the day specified in the amendment.

Once circumstances allow for implementation to resume, the coordinator must immediately request another **amendment** of the Agreement to set the suspension end date, the resumption date (one day after suspension end date), extend the duration and make other changes necessary to adapt the action to the new situation (see Article 39) — unless the grant has been terminated (see Article 32). The suspension will be **lifted** with effect from the suspension end date set out in the amendment. This date may be before the date of the submission of the amendment request.

During the suspension, no prefinancing will be paid. Moreover, no work may be done. Ongoing work packages must be interrupted and no new work packages may be started.

31.2 EU-initiated GA suspension

31.2.1 Conditions

The granting authority may suspend the grant or any part of it, if:

- (a) a beneficiary (or a person having powers of representation, decision-making or control, or person essential for the award/implementation of the grant) has committed or is suspected of having committed:
 - (i) substantial errors, irregularities or fraud or
 - (ii) serious breach of obligations under this Agreement or during its award (including improper implementation of the action, non-compliance with the call conditions, submission of false information, failure to provide required information, breach of ethics or security rules (if applicable), etc.), or
- (b) a beneficiary (or a person having powers of representation, decision-making or control, or person essential for the award/implementation of the grant) has committed — in other EU grants awarded to it under similar conditions — systemic or recurrent errors, irregularities, fraud or serious breach of obligations that have a material impact on this grant (extension of findings; see Article 25.5)
- (c) other:
 - (i) linked action issues: not applicable
 - (ii) additional GA suspension grounds: not applicable.

31.2.2 Procedure

Before suspending the grant, the granting authority will send a **pre-information letter** to the coordinator:

- formally notifying the intention to suspend the grant and the reasons why and
- requesting observations within 30 days of receiving notification.

If the granting authority does not receive observations or decides to pursue the procedure despite the observations it has received, it will confirm the suspension (**confirmation letter**). Otherwise, it will formally notify that the procedure is discontinued.

The suspension will **take effect** the day after the confirmation notification is sent (or on a later date specified in the notification).

Once the conditions for resuming implementation of the action are met, the granting authority will formally notify the coordinator a **lifting of suspension letter**, in which it will set the suspension end date and invite the coordinator to request an amendment of the Agreement to set the resumption date (one day after suspension end date), extend the duration and make other changes necessary to adapt the action to the new situation (see Article 39) — unless the grant has been terminated (see Article 32). The suspension will be **lifted** with effect from the suspension end date set out in the lifting of suspension letter. This date may be before the date on which the letter is sent.

During the suspension, no prefinancing will be paid. Moreover, no work may be done. Ongoing work packages must be interrupted and no new work packages may be started.

The beneficiaries may not claim damages due to suspension by the granting authority (see Article 33).

Grant suspension does not affect the granting authority's right to terminate the grant or a beneficiary (see Article 32) or reduce the grant (see Article 28).

ARTICLE 32 — GRANT AGREEMENT OR BENEFICIARY TERMINATION

32.1 Consortium-requested GA termination

32.1.1 Conditions and procedure

The beneficiaries may request the termination of the grant.

The coordinator must submit a request for **amendment** (see Article 39), with:

- the reasons why
- the date the consortium ends work on the action ('end of work date') and
- the date the termination takes effect ('termination date'); this date must be after the date of the submission of the amendment request.

The termination will **take effect** on the termination date specified in the amendment.

If no reasons are given or if the granting authority considers the reasons do not justify termination, it may consider the grant terminated improperly.

32.1.2 Effects

The coordinator must — within 60 days from when termination takes effect — submit a **periodic report** (for the open reporting period until termination).

The granting authority will calculate the final grant amount and final payment on the basis of the report submitted and taking into account the lump sum contributions for activities implemented before the end of work date (see Article 22). Partial lump sum contributions for work packages that were not completed (e.g. due to technical reasons) may exceptionally be taken into account.

If the granting authority does not receive the report within the deadline, only lump sum contributions which are included in an approved periodic report will be taken into account (no contributions if no periodic report was ever approved).

Improper termination may lead to a grant reduction (see Article 28).

After termination, the beneficiaries' obligations (in particular Articles 13 (confidentiality and security), 16 (IPR), 17 (communication, dissemination and visibility), 21 (reporting), 25 (checks, reviews, audits and investigations), 26 (impact evaluation), 27 (rejections), 28 (grant reduction) and 41 (assignment of claims)) continue to apply.

32.2 Consortium-requested beneficiary termination

32.2.1 Conditions and procedure

The coordinator may request the termination of the participation of one or more beneficiaries, on request of the beneficiary concerned or on behalf of the other beneficiaries.

The coordinator must submit a request for **amendment** (see Article 39), with:

- the reasons why
- the opinion of the beneficiary concerned (or proof that this opinion has been requested in writing)
- the date the beneficiary ends work on the action ('end of work date')
- the date the termination takes effect ('termination date'); this date must be after the date of the submission of the amendment request.

If the termination concerns the coordinator and is done without its agreement, the amendment request must be submitted by another beneficiary (acting on behalf of the consortium).

The termination will **take effect** on the termination date specified in the amendment.

If no information is given or if the granting authority considers that the reasons do not justify termination, it may consider the beneficiary to have been terminated improperly.

32.2.2 Effects

The coordinator must — within 60 days from when termination takes effect — submit:

- (i) a **report on the distribution of payments** to the beneficiary concerned

- (ii) a **termination report** from the beneficiary concerned, for the open reporting period until termination, containing an overview of the progress of the work
- (iii) a second **request for amendment** (see Article 39) with other amendments needed (e.g. reallocation of the tasks and the estimated budget of the terminated beneficiary; addition of a new beneficiary to replace the terminated beneficiary; change of coordinator, etc.).

The granting authority will calculate the amount due to the beneficiary on the basis of the reports submitted in previous interim payments (i.e. beneficiary's lump sum contributions for completed and approved work packages).

Lump sum contributions for ongoing/not yet completed work packages will have to be included in the periodic report for the next reporting periods when those work packages have been completed.

If the granting authority does not receive the report on the distribution of payments within the deadline, it will consider that:

- the coordinator did not distribute any payment to the beneficiary concerned and that
- the beneficiary concerned must not repay any amount to the coordinator.

If the second request for amendment is accepted by the granting authority, the Agreement is **amended** to introduce the necessary changes (see Article 39).

If the second request for amendment is rejected by the granting authority (because it calls into question the decision awarding the grant or breaches the principle of equal treatment of applicants), the grant may be terminated (see Article 32).

Improper termination may lead to a reduction of the grant (see Article 31) or grant termination (see Article 32).

After termination, the concerned beneficiary's obligations (in particular Articles 13 (confidentiality and security), 16 (IPR), 17 (communication, dissemination and visibility), 21 (reporting), 25 (checks, reviews, audits and investigations), 26 (impact evaluation), 27 (rejections), 28 (grant reduction) and 41 (assignment of claims)) continue to apply.

32.3 EU-initiated GA or beneficiary termination

32.3.1 Conditions

The granting authority may terminate the grant or the participation of one or more beneficiaries, if:

- (a) one or more beneficiaries do not accede to the Agreement (see Article 40)
- (b) a change to the action or the legal, financial, technical, organisational or ownership situation of a beneficiary is likely to substantially affect the implementation of the action or calls into question the decision to award the grant (including changes linked to one of the exclusion grounds listed in the declaration of honour)
- (c) following termination of one or more beneficiaries, the necessary changes to the Agreement (and their impact on the action) would call into question the decision awarding the grant or breach the principle of equal treatment of applicants

- (d) implementation of the action has become impossible or the changes necessary for its continuation would call into question the decision awarding the grant or breach the principle of equal treatment of applicants
- (e) a beneficiary (or person with unlimited liability for its debts) is subject to bankruptcy proceedings or similar (including insolvency, winding-up, administration by a liquidator or court, arrangement with creditors, suspension of business activities, etc.)
- (f) a beneficiary (or person with unlimited liability for its debts) is in breach of social security or tax obligations
- (g) a beneficiary (or person having powers of representation, decision-making or control, or person essential for the award/implementation of the grant) has been found guilty of grave professional misconduct
- (h) a beneficiary (or person having powers of representation, decision-making or control, or person essential for the award/implementation of the grant) has committed fraud, corruption, or is involved in a criminal organisation, money laundering, terrorism-related crimes (including terrorism financing), child labour or human trafficking
- (i) a beneficiary (or person having powers of representation, decision-making or control, or person essential for the award/implementation of the grant) was created under a different jurisdiction with the intent to circumvent fiscal, social or other legal obligations in the country of origin (or created another entity with this purpose)
- (j) a beneficiary (or person having powers of representation, decision-making or control, or person essential for the award/implementation of the grant) has committed:
 - (i) substantial errors, irregularities or fraud or
 - (ii) serious breach of obligations under this Agreement or during its award (including improper implementation of the action, non-compliance with the call conditions, submission of false information, failure to provide required information, breach of ethics or security rules (if applicable), etc.)
- (k) a beneficiary (or person having powers of representation, decision-making or control, or person essential for the award/implementation of the grant) has committed — in other EU grants awarded to it under similar conditions — systemic or recurrent errors, irregularities, fraud or serious breach of obligations that have a material impact on this grant (extension of findings; see Article 25.5)
- (l) despite a specific request by the granting authority, a beneficiary does not request — through the coordinator — an amendment to the Agreement to end the participation of one of its affiliated entities or associated partners that is in one of the situations under points (d), (f), (e), (g), (h), (i) or (j) and to reallocate its tasks, or
- (m) other:
 - (i) linked action issues: not applicable
 - (ii) additional GA termination grounds: not applicable.

32.3.2 Procedure

Before terminating the grant or participation of one or more beneficiaries, the granting authority will send a **pre-information letter** to the coordinator or beneficiary concerned:

- formally notifying the intention to terminate and the reasons why and
- requesting observations within 30 days of receiving notification.

If the granting authority does not receive observations or decides to pursue the procedure despite the observations it has received, it will confirm the termination and the date it will take effect (**confirmation letter**). Otherwise, it will formally notify that the procedure is discontinued.

For beneficiary terminations, the granting authority will — at the end of the procedure — also inform the coordinator.

The termination will **take effect** the day after the confirmation notification is sent (or on a later date specified in the notification; ‘termination date’).

32.3.3 Effects

(a) for **GA termination**:

The coordinator must — within 60 days from when termination takes effect — submit a **periodic report** (for the last open reporting period until termination).

The granting authority will calculate the final grant amount and final payment on the basis of the report submitted and taking into account the lump sum contributions for activities implemented before termination takes effect (see Article 22). Partial lump sum contributions for work packages that were not completed (e.g. due to technical reasons) may exceptionally be taken into account.

If the grant is terminated for breach of the obligation to submit reports, the coordinator may not submit any report after termination.

If the granting authority does not receive the report within the deadline, only lump sum contributions which are included in an approved periodic report will be taken into account (no contributions if no periodic report was ever approved).

Termination does not affect the granting authority’s right to reduce the grant (see Article 28) or to impose administrative sanctions (see Article 34).

The beneficiaries may not claim damages due to termination by the granting authority (see Article 33).

After termination, the beneficiaries’ obligations (in particular Articles 13 (confidentiality and security), 16 (IPR), 17 (communication, dissemination and visibility), 21 (reporting), 25 (checks, reviews, audits and investigations), 26 (impact evaluation), 27 (rejections), 28 (grant reduction) and 41 (assignment of claims)) continue to apply.

(b) for **beneficiary termination**:

The coordinator must — within 60 days from when termination takes effect — submit:

- (i) a **report on the distribution of payments** to the beneficiary concerned
- (ii) a **termination report** from the beneficiary concerned, for the open reporting period until termination, containing an overview of the progress of the work
- (iii) a **request for amendment** (see Article 39) with any amendments needed (e.g. reallocation of the tasks and the estimated budget of the terminated beneficiary; addition of a new beneficiary to replace the terminated beneficiary; change of coordinator, etc.).

The granting authority will calculate the amount due to the beneficiary on the basis of the reports submitted in previous interim payments (i.e. beneficiary's lump sum contributions for completed and approved work packages).

Lump sum contributions for ongoing/not yet completed work packages will have to be included in the periodic report for the next reporting periods when those work packages have been completed.

If the granting authority does not receive the report on the distribution of payments within the deadline, it will consider that:

- the coordinator did not distribute any payment to the beneficiary concerned and that
- the beneficiary concerned must not repay any amount to the coordinator.

If the request for amendment is accepted by the granting authority, the Agreement is **amended** to introduce the necessary changes (see Article 39).

If the request for amendment is rejected by the granting authority (because it calls into question the decision awarding the grant or breaches the principle of equal treatment of applicants), the grant may be terminated (see Article 32).

After termination, the concerned beneficiary's obligations (in particular Articles 13 (confidentiality and security), 16 (IPR), 17 (communication, dissemination and visibility), 21 (reporting), 25 (checks, reviews, audits and investigations), 26 (impact evaluation), 27 (rejections), 28 (grant reduction) and 41 (assignment of claims)) continue to apply.

SECTION 3 OTHER CONSEQUENCES: DAMAGES AND ADMINISTRATIVE SANCTIONS

ARTICLE 33 — DAMAGES

33.1 Liability of the granting authority

The granting authority cannot be held liable for any damage caused to the beneficiaries or to third parties as a consequence of the implementation of the Agreement, including for gross negligence.

The granting authority cannot be held liable for any damage caused by any of the beneficiaries or other participants involved in the action, as a consequence of the implementation of the Agreement.

33.2 Liability of the beneficiaries

The beneficiaries must compensate the granting authority for any damage it sustains as a result of the implementation of the action or because the action was not implemented in full compliance with the Agreement, provided that it was caused by gross negligence or wilful act.

The liability does not extend to indirect or consequential losses or similar damage (such as loss of profit, loss of revenue or loss of contracts), provided such damage was not caused by wilful act or by a breach of confidentiality.

ARTICLE 34 — ADMINISTRATIVE SANCTIONS AND OTHER MEASURES

Nothing in this Agreement may be construed as preventing the adoption of administrative sanctions (i.e. exclusion from EU award procedures and/or financial penalties) or other public law measures, in addition or as an alternative to the contractual measures provided under this Agreement (see, for instance, Articles 135 to 145 EU Financial Regulation 2018/1046 and Articles 4 and 7 of Regulation 2988/95¹⁸).

SECTION 4 FORCE MAJEURE

ARTICLE 35 — FORCE MAJEURE

A party prevented by force majeure from fulfilling its obligations under the Agreement cannot be considered in breach of them.

‘Force majeure’ means any situation or event that:

- prevents either party from fulfilling their obligations under the Agreement,
- was unforeseeable, exceptional situation and beyond the parties’ control,
- was not due to error or negligence on their part (or on the part of other participants involved in the action), and
- proves to be inevitable in spite of exercising all due diligence.

Any situation constituting force majeure must be formally notified to the other party without delay, stating the nature, likely duration and foreseeable effects.

The parties must immediately take all the necessary steps to limit any damage due to force majeure and do their best to resume implementation of the action as soon as possible.

CHAPTER 6 FINAL PROVISIONS

ARTICLE 36 — COMMUNICATION BETWEEN THE PARTIES

36.1 Forms and means of communication — Electronic management

¹⁸ Council Regulation (EC, Euratom) No 2988/95 of 18 December 1995 on the protection of the European Communities financial interests (OJ L 312, 23.12.1995, p. 1).

EU grants are managed fully electronically through the EU Funding & Tenders Portal ('Portal').

All communications must be made electronically through the Portal in accordance with the Portal Terms and Conditions and using the forms and templates provided there (except if explicitly instructed otherwise by the granting authority).

Communications must be made in writing and clearly identify the grant agreement (project number and acronym).

Communications must be made by persons authorised according to the Portal Terms and Conditions. For naming the authorised persons, each beneficiary must have designated — before the signature of this Agreement — a 'legal entity appointed representative (LEAR)'. The role and tasks of the LEAR are stipulated in their appointment letter (see Portal Terms and Conditions).

If the electronic exchange system is temporarily unavailable, instructions will be given on the Portal.

36.2 Date of communication

The sending date for communications made through the Portal will be the date and time of sending, as indicated by the time logs.

The receiving date for communications made through the Portal will be the date and time the communication is accessed, as indicated by the time logs. Formal notifications that have not been accessed within 10 days after sending, will be considered to have been accessed (see Portal Terms and Conditions).

If a communication is exceptionally made on paper (by e-mail or postal service), general principles apply (i.e. date of sending/receipt). Formal notifications by registered post with proof of delivery will be considered to have been received either on the delivery date registered by the postal service or the deadline for collection at the post office.

If the electronic exchange system is temporarily unavailable, the sending party cannot be considered in breach of its obligation to send a communication within a specified deadline.

36.3 Addresses for communication

The Portal can be accessed via the Europa website.

The address for paper communications to the granting authority (if exceptionally allowed) is the official mailing address indicated on its website.

For beneficiaries, it is the legal address specified in the Portal Participant Register.

ARTICLE 37 — INTERPRETATION OF THE AGREEMENT

The provisions in the Data Sheet take precedence over the rest of the Terms and Conditions of the Agreement.

Annex 5 takes precedence over the Terms and Conditions.

The Terms and Conditions take precedence over the Annexes other than Annex 5.

Annex 2 takes precedence over Annex 1.

ARTICLE 38 — CALCULATION OF PERIODS AND DEADLINES

In accordance with Regulation No 1182/71¹⁹, periods expressed in days, months or years are calculated from the moment the triggering event occurs.

The day during which that event occurs is not considered as falling within the period.

‘Days’ means calendar days, not working days.

ARTICLE 39 — AMENDMENTS

39.1 Conditions

The Agreement may be amended, unless the amendment entails changes to the Agreement which would call into question the decision awarding the grant or breach the principle of equal treatment of applicants.

Amendments may be requested by any of the parties.

39.2 Procedure

The party requesting an amendment must submit a request for amendment signed directly in the Portal Amendment tool.

The coordinator submits and receives requests for amendment on behalf of the beneficiaries (see Annex 3). If a change of coordinator is requested without its agreement, the submission must be done by another beneficiary (acting on behalf of the other beneficiaries).

The request for amendment must include:

- the reasons why
- the appropriate supporting documents and
- for a change of coordinator without its agreement: the opinion of the coordinator (or proof that this opinion has been requested in writing).

The granting authority may request additional information.

If the party receiving the request agrees, it must sign the amendment in the tool within 45 days of receiving notification (or any additional information the granting authority has requested). If it does not agree, it must formally notify its disagreement within the same deadline. The deadline may be extended, if necessary for the assessment of the request. If no notification is received within the deadline, the request is considered to have been rejected.

An amendment **enters into force** on the day of the signature of the receiving party.

¹⁹ Regulation (EEC, Euratom) No 1182/71 of the Council of 3 June 1971 determining the rules applicable to periods, dates and time-limits (OJ L 124, 8/6/1971, p. 1).

An amendment **takes effect** on the date of entry into force or other date specified in the amendment.

ARTICLE 40 — ACCESSION AND ADDITION OF NEW BENEFICIARIES

40.1 Accession of the beneficiaries mentioned in the Preamble

The beneficiaries which are not coordinator must accede to the grant by signing the accession form (see Annex 3) directly in the Portal Grant Preparation tool, within 30 days after the entry into force of the Agreement (see Article 44).

They will assume the rights and obligations under the Agreement with effect from the date of its entry into force (see Article 44).

If a beneficiary does not accede to the grant within the above deadline, the coordinator must — within 30 days — request an amendment (see Article 39) to terminate the beneficiary and make any changes necessary to ensure proper implementation of the action. This does not affect the granting authority's right to terminate the grant (see Article 32).

40.2 Addition of new beneficiaries

In justified cases, the beneficiaries may request the addition of a new beneficiary.

For this purpose, the coordinator must submit a request for amendment in accordance with Article 39. It must include an accession form (see Annex 3) signed by the new beneficiary directly in the Portal Amendment tool.

New beneficiaries will assume the rights and obligations under the Agreement with effect from the date of their accession specified in the accession form (see Annex 3).

Additions are also possible in mono-beneficiary grants.

ARTICLE 41 — TRANSFER OF THE AGREEMENT

In justified cases, the beneficiary of a mono-beneficiary grant may request the transfer of the grant to a new beneficiary, provided that this would not call into question the decision awarding the grant or breach the principle of equal treatment of applicants.

The beneficiary must submit a request for **amendment** (see Article 39), with

- the reasons why
- the accession form (see Annex 3) signed by the new beneficiary directly in the Portal Amendment tool and
- additional supporting documents (if required by the granting authority).

The new beneficiary will assume the rights and obligations under the Agreement with effect from the date of accession specified in the accession form (see Annex 3).

ARTICLE 42 — ASSIGNMENTS OF CLAIMS FOR PAYMENT AGAINST THE GRANTING AUTHORITY

The beneficiaries may not assign any of their claims for payment against the granting authority to any third party, except if expressly approved in writing by the granting authority on the basis of a reasoned, written request by the coordinator (on behalf of the beneficiary concerned).

If the granting authority has not accepted the assignment or if the terms of it are not observed, the assignment will have no effect on it.

In no circumstances will an assignment release the beneficiaries from their obligations towards the granting authority.

ARTICLE 43 — APPLICABLE LAW AND SETTLEMENT OF DISPUTES

43.1 Applicable law

The Agreement is governed by the applicable EU law, supplemented if necessary by the law of Belgium.

Special rules may apply for beneficiaries which are international organisations (if any; see Data Sheet, Point 5).

43.2 Dispute settlement

If a dispute concerns the interpretation, application or validity of the Agreement, the parties must bring action before the EU General Court — or, on appeal, the EU Court of Justice — under Article 272 of the Treaty on the Functioning of the EU (TFEU).

For non-EU beneficiaries (if any), such disputes must be brought before the courts of Brussels, Belgium — unless an international agreement provides for the enforceability of EU court judgements.

For beneficiaries with arbitration as special dispute settlement forum (if any; see Data Sheet, Point 5), the dispute will — in the absence of an amicable settlement — be settled in accordance with the Rules for Arbitration published on the Portal.

If a dispute concerns administrative sanctions, offsetting or an enforceable decision under Article 299 TFEU (see Articles 22 and 34), the beneficiaries must bring action before the General Court — or, on appeal, the Court of Justice — under Article 263 TFEU.

For grants where the granting authority is an EU executive agency (see Preamble), actions against offsetting and enforceable decisions must be brought against the European Commission (not against the granting authority; see also Article 22).

ARTICLE 44 — ENTRY INTO FORCE

The Agreement will enter into force on the day of signature by the granting authority or the coordinator, depending on which is later.

PROJECT SUMMARY

Project summary

Grant Preparation (General Information screen) — Provide an overall description of your project (including context and overall objectives, planned activities and main achievements, and expected results and impacts (on target groups, change procedures, capacities, innovation etc)). This summary should give readers a clear idea of what your project is about.

Use the project summary from your proposal.

What we do now, will define our future is the motto of the international project. The project is a common work of partners from seven European countries. Its task is to determine the basic needs of citizens and the partnership and to transfer them to mutual debates. The project will deal with the following issues: strengthening the situation of the European Union among citizens, support for non-discrimination, removing prejudices against ethnical minorities, impacts of the COVID-19 pandemic, strengthening the future of the partnership, and presentation of cultural richness of the partnership. Special attention will be paid to the participation of young people who are the important element of society due to their role in the future of the partnership and the EU. The implementation of the project will be conducted through lectures, debates, workshops, presentations, and best practices. The mutual project will be carried out as a single event lasting 3 days. The project implementation shall underline the current needs. The COVID-19 pandemic introduced limitations in functioning of the partner municipalities. The project will help to remove the limitations. At the same time, it will allow the organization of people from 8 partner municipalities, 2 of which are completely new. It will also enable the meeting of ethnical minorities living at the territories of the partner municipalities. The nations and minorities will find the common language through presentations of culture. Thus, the project will contribute to removing the negative experiences with the lockdown in the countries and to opening the partnership for other self-governments and their citizens.

Project goals:

- 1) to strengthen solidarity in Europe
- 2) to remove prejudices against ethnical minorities
- 3) to ensure active participation of citizens at the local level
- 4) to attract young people towards the EU
- 5) to connect people and encourage new friendships

Citizens, Equality, Rights and Values Programme (CERV)

Application Form

Technical Description (Part B)

(CERV Standard)

Version 1.0
01 April 2021

Disclaimer

This document is aimed at informing applicants for EU funding. It serves only as an example. The actual web forms and templates are provided in the Funding & Tenders Portal Submission System (and may contain certain differences). The applications (including annexes and supporting documents) must be prepared and submitted online via the Portal.

IMPORTANT NOTICE

What is the Application Form?

The Application Form is the template for EU grants applications; it must be submitted via the EU Funding & Tenders Portal before the call deadline.

The Form consists of 2 parts:

- Part A contains structured administrative information
- Part B is a narrative technical description of the project.

Part A is generated by the IT system. It is based on the information which you enter into the Portal Submission System screens.

Part B needs to be uploaded as PDF (+ annexes) in the Submission System. The templates to use are available there.

How to prepare and submit it?

The Application Form must be prepared by the consortium and submitted by a representative. Once submitted, you will receive a confirmation.

Character and page limits:

- page limit normally **45** pages (unless otherwise provided in the Call document)
- supporting documents can be provided as an annex and do not count towards the page limit
- minimum font size — Arial 9 points
- page size: A4
- margins (top, bottom, left and right): at least 15 mm (not including headers & footers).

Please abide by the formatting rules. They are NOT a target! Keep your text as concise as possible. Do not use hyperlinks to show information that is an essential part of your application.

 If you attempt to upload an application that exceeds the specified limit, you will receive an automatic warning asking you to shorten and re-upload your application. For applications that are not shortened, the excess pages will be made invisible and thus disregarded by the evaluators.

 **Please do NOT delete any instructions in the document. The overall page limit has been raised to ensure equal treatment of all applicants.**

TECHNICAL DESCRIPTION (PART B)

COVER PAGE

Part B of the Application Form must be downloaded from the Portal Submission System, completed and then assembled and re-uploaded as PDF in the system.

Note: Please read carefully the conditions set out in the Call document (for open calls: published on the Portal). Pay particular attention to the award criteria; they explain how the application will be evaluated.

PROJECT	
Project name:	What we do now, will define our future

PROJECT SUMMARY

Project summary

See Abstract (Application Form Part A).

1. RELEVANCE

1.1 Background and general objectives

Background and general objectives

Describe the background and rationale of the project.

How is the project relevant to the scope of the call? How does the project address the general objectives of the call? What is the project's contribution to the priorities of the call?

Which target groups will be supported/assisted by/in the project. Why have you chosen to focus on them?

Background of the project is given by the existence of the partnership which shall be extended through the project implementation. The COVID-19 pandemic caused that the partnership has not had the chance to progress. Now the partners see the opportunity to restart the partnership and adapt it to the current needs. At the same time, the participation of as many people as possible is desired. This is the background of the project, which will be helpful in meeting the objectives and priorities of the CERV Programme. These are the following ones:

To promote exchanges between citizens of different countries – the project is about connection of eight partner municipalities and their citizens. The project implementation will include 210 participants from abroad – 30 from each partner municipality and some 500 domestic ones). Through their participation at the project, the participants will have the opportunity to communicate together, to exchange information and form new relations. the citizens from 7 European countries will be able to exchange their views on the proposed themes.

To give citizens the opportunity to discover the cultural diversity of the European Union and to make them aware that European values and cultural heritage constitute the foundation for a common future – the European Union is well-known for its cultural and linguistic diversity. There are 27 states using 24 official languages. Five of them will be used in the project. Next to them, there are the languages of the candidate countries – Serbian and Montenegrin. Each language identifies nation as well as culture. Within the project, the 7 European languages and cultures will be introduced to the public in general. This way, the cultural richness of the partnership will contribute to the development of tolerance and removal of ethnical prejudices. Tolerance is one of the EU values, and the project will contribute to presentation of such values.

To guarantee peaceful relations between Europeans and to ensure their active participation at the local level – the project is conceptualized so that each participant can be active. It means that the citizens will have the opportunity to interact. They will be able to learn about their opinions on various aspects and themes. They will also familiarize mutually and lead dialogue. This way, we will ensure peaceful relations between Europeans. The relations will be supported by the elements of non-discrimination. Active engagement of citizens in the project is aimed at encouraging active participation in public affairs at the local level. The project will open space for debates, presenting opinions and learning about volunteering. This, way, it will support the interest of the citizens in active participation at the local level.

To reinforce mutual understanding and friendship between European citizens – the project puts cultural and linguistic diversity of the partnership to the spotlight. By presenting them, it will contribute to eliminating ethnical prejudices and to fostering intercultural dialogue based on linking various people together within the project. The citizens of the partner municipalities will have the real opportunity to become familiar to each other and create friendships. The activities are focused on inclusion, culture of minorities and working with them, thus contributing to the development of mutual understanding.

To encourage cooperation between municipalities and the exchange of best practices – the partners want to implement the project in order to restart the partnership and the cooperation. The project will enable the 8 municipalities - Veľký Meder (SK), Ábrahámhegy (HU), Bácsalmás (HU), Lendava (SI), Sângeorgiu de Padura (RO), Dobruška (CZ), Čačak (RS), Mojkovac (ME) – to create the space for strengthening the current cooperation, extending the partnership by two new partners, and to exchange experiences and best practices. The exchange of experiences will address the following themes:

managing the COVID-19 pandemic, work with minorities living at the territories of the partner municipalities, projects supported by the ESIF, and cooperation with active citizens.

To support good local governance and reinforce the role of local and regional authorities in the European integration process – the project will support the cooperation between the partnership municipalities. This way, they will have the opportunity to exchange the best practices and experiences in the field of functioning in self-governments. Thus, they will become wiser and could use the know-how in favour of better local governance.

The project will fulfil the following priorities:

Raising awareness on the richness of the cultural and linguistic environment in Europe – as it has been mentioned earlier, the European Union is famous for its cultural and linguistic diversity. There are 27 states using 24 official languages. Five of them will be used in the project. Next to them, there are the languages of the candidate countries – Serbian and Montenegrin. Each language identifies nation as well as culture. Within the project, the 7 European languages and cultures will be introduced to the public in general. This way, the partnership will prove that together with the whole Europe, it can use the richness of languages and cultures in building intercultural dialogue.

Raising awareness of the importance of reinforcing the European integration process based on solidarity – the project will give the citizens of various countries the possibility to travel to Slovakia and to meet each other. This way, the borders will open after they had been closed due to the COVID-19. The mutual meeting of the seven nations will contribute to opening new relations among the nations. It is an important message as the project would address the common problems, search for solutions and open place for meaningful debates. The overcoming of national barriers and borders will contribute to the development of solidarity among nations. At the same time, it will indirectly support European integration, as there are also two municipalities from the candidate countries.

Fostering a sense of belonging to Europe by promoting the debate on the future of Europe – the project will also be dedicated to the EU and related themes. The concrete successes of the EU throughout the 64 years of its existence will be presented as well as plans and programmes in favour of young people in the sphere of education and culture, and successful projects supported by the EU. Each theme will be followed by a discussion, important for solving the future of Europe. Dissemination of EU-related information will lead to the development of European awareness. The EU will become more present among ordinary people and there will be no more place for euroscepticism.

Reflecting on the impact of the COVID-19 pandemic on the local communities – the COVID-19 pandemic influenced also the partner municipalities. They will discuss the impacts of it and how they dealt with it. The partners will exchange information about the past and also on how to deal with potential new waves. The exhibition of pictures will provide the artistic perspective on the pandemic.

The project wants to support the following target groups:

Children and youth – younger generations represent the future of each municipality, country, partnership, and even the EU. The project is an opportunity to direct them to proper paths. Within the project, the younger generations will be given impulses and information related to tolerance, solidarity, equality, and non-discrimination, also in the context of the European Union. Their participation will be in accordance with the documents related to the rights of the child.

Adults – the majority of the participants. The opportunity to meet new people from different countries is great. Therefore, the project wants these people to find new impulses and knowledge. The event will facilitate emergence of new friendships.

Elderly – people with experiences, often marginalized. The project will enable them to become active again and to pass their knowledge to other people.

Self-government officials – representatives of municipalities who are essential for institutional roof of the partnership. Within the project, they will have the chance to discuss everything together and to exchange good practices.

1.2 Needs analysis and specific objectives

Needs analysis and specific objectives (n/a for Programme Contact Points)

Provide a needs assessment. A need is a gap between what is and what should/ would be helpful or useful.

The needs assessment should be your starting point. Specify what needs will be addressed and how they have been identified. It should be specific and focus on the actual needs of the target group. It should include relevant, reliable data and, a robust analysis clearly demonstrating the need for the action (therefore, avoid references to generic statements and information about the problems and needs of the target group). The needs assessment should incorporate gender equality issues and non-discrimination considerations that identify the differences between and among women and men, girls and boys, in terms of their relative position in society and the distribution of resources, opportunities, constraints and power in a given context. The data supporting the needs assessment should be disaggregated by sex, as well as age or disability, whenever possible. You can refer to existing research, studies and previous projects that already demonstrate the need for action.

If your project is supported by a public authority, annex the Letter of support.

The project is built based on the „bottom-up“ principle. Therefore, it is focused on supporting local administration and cooperation between municipalities. Local policy may restore faith in Europe: more than a half of Europeans has faith in regional and local self-governments. The new poll for the European Committee of Regions says that 52% of respondents have faith in local and regional self-governments, making them the most reliable levels of public administration, and the only one which is reliable for the majority of Europeans. The answers in the common survey of the Committee of Regions and OECD show that a new coordination model between different levels of management is necessary: with respect to the future, 67% of Europeans think that local and regional self-governments are not influential enough to affect the EU-level decisions. Europeans would be glad to let regional and local self-governments have stronger influence at the EU level in several areas: healthcare (45%), employment and social affairs (43%), and education, professional training and culture (40%) are the most often cited ones. As much as 58% of respondents (and majority in each member state) think that more influential local and regional self-governments will positively affect the EU problem-solving ability. It seems that more and more people realize that the future of Europe must be built in cooperation with regions, towns and villages, and not only with member states and Brussels.

The **poll** carried out by Kantar with over 26,000 respondents says that **Europeans rely on local and regional self-governments more than on national governments or the EU**, in general and also in reaction to the pandemic. The poll participants would welcome stronger influence of local and regional self-governments on healthcare, social affairs, employment, education, professional training, and culture.

Outcome:

To ensure a more efficient coordination of all levels of public administration and to support local democracy in the EU and beyond it.

Another important aspect is the support for youth:

Young people aged 15-29 represent 17% of the EU population. They all have to face the same challenges – poor labour market, insufficient opportunities for education and professional training. Young people are not immune against crises such as global warming, uncertainty and mistrust towards institutions; they all desire better future. The EU provides various opportunities including better mobility, which is crucial in strengthening the knowledge-based economics.

The first Europe-wide regional and local barometer, prepared by the European Committee of Regions, shows that the COVID-19 pandemic importantly affects the income of public administration bodies on all levels lower than national one. The report says that there could emerge a so-called lost generation of young people „COVID-19“, while the attention is paid also to the differences between regional healthcare systems. Widening gaps between rural and urban areas also represent a clear threat for the EU cohesion. Due to the crisis, there could emerge a lost generation, as workplaces for young people are more endangered and only six member states succeeded in providing digital education for at least 80% of students. The fact that 67% of European want the towns and regions having more influence on decision—making at the EU level suggests that it is the proper time to reconsider the democracy in the EU and its connection to citizens of individual territories.

Outcome: motivation of the participants to take active part in building the local administration and the European community through their participation in the Conference on the future of Europe.

Within the project we will also emphasize the existing and even widening gap between men and women in society. It is our goal, in accordance with the **Gender equality strategy 2020-2025**, to eradicate gender-motivated violence, to fight against gender-based stereotyping, to remove gender-based differences in the labour market, to ensure equal participation in different sectors of economy, to solve the differences in wages and income between men and women, and to remove gender-based differences in social care and ensuring balance in decision-making and policy-making processes.

Based on the polls and the effort to provide non-discrimination, including gender equality, the project strives to ensure better image of the EU from the standpoint of citizens. The polls say European have more faith in their municipalities than in the EU. We need to change this and show that the EU is

a strong partner, supporting lives of its citizens more than they know.

1.3 Complementarity with other actions and innovation — European added value

Complementarity with other actions and innovation *(n/a for Programme Contact Points)*

Explain how the project builds on the results of past activities carried out in the field and describe its innovative aspects. Explain how the activities are complementary to other activities carried out by other organisations.

Illustrate the European dimension of the activities: trans-national dimension of the project; impact/interest for a number of EU countries; possibility to use the results in other countries, potential to develop mutual trust/cross-border cooperation among EU countries, etc.

Which countries will benefit from the project (directly and indirectly and why have you chosen them)? Where will the activities take place?

Clarify to what extent the project builds on synergies with other EU projects. If applicable, explain to what extent your project builds on previous project results in this field (state of play, relation to existing/recent developments, approaches, achievements, other EU programmes).

Note: *The project should also complement or add benefits to the EU Member States' interventions in the area of gender equality and non-discrimination mainstreaming.*

The proposed project is indirectly linked to the previous project supported from the Europe for Citizens Programme - Great Thing will happen in Velký Meder (625454-CITIZ-1-2020-2-SK-CITIZ-TT), which was implemented in August 2021. That project supported links between the citizens, European citizenship, and removal of the stigmatisation of migrants. The proposed project continues where the previous one stopped. It supports European awareness, extends the partnership by municipalities from the candidate countries, and support the elimination of prejudices against ethnical minorities. Thus, the proposed project stands on the fundamentals, expanding them by new themes. The proposed project also deals with the COVID-19 pandemic and its impacts on local communities.

The innovative aspect of the project lies in active engagement of ethnical minorities to the project. The work programme contains the following activities: Roma minority and its culture – workshop and presentation of Roma culture; Ethnical minorities in Europe – seminar with the Fórum inštitút organization focused on the research of ethnical minorities; Solidarity and integration – debate with members of minorities, who escaped the marginalized environment; Culture of ethnical minorities. Their task is to show the problem of coexistence of majority and minorities, marginalization of ethnical minorities, especially the Roma, and the old prejudices. The project removes the existing barriers and strives to provide impulses so that new prejudices would not emerge. This way, solidarity, tolerance and inclusion – themes related to the EU come to the forefront. The innovative feature of the project is its focus on children and youth. The age categories represent the future of each municipality, each country and also the partnership and the EU. By their active engagement and informal education about the EU we prepare them for their future roles. If they see the EU and its values as good from the start, they will be happy to support the European project. Another innovative element is the support for gender equality. All project activities are open for all citizens of the partner municipalities. None of them is more suitable for men or women. The aim is to create the space where everyone (each man, each woman) is equal.

The project has a significant European dimension. This is given by an implementation of the European themes into the project activities and by a debate about the current issues concerning the EU. Within the project, workshops and debates with a theme of the EU contributions to the lives of citizens, the EU attitude towards the current themes and problems and its attitude towards the COVID-19 pandemic, will be implemented for participants. This will help to raise the European awareness. Participation of eight partners from seven European countries in one mutual project is a second element of the European dimension. These partners will ensure participation of their citizens. Within the project, they will discuss various themes connected with the partnership and the EU, culture and solidarity will be presented, and the European awareness will be developed. The project ideas and outputs will reach seven countries by their citizens. Such ideas will include universal solutions to the current issues etc., which will be brought by participants to their households, communities and municipalities. The project impacts will therefore reach countries as the Czech Republic, Slovakia, Hungary, Montenegro, Serbia, Romania and Slovenia. Universality of the discussed European themes enables to implement similar project in different countries, too.

The direct benefits will flow to the countries participating in the project through eight partner municipalities: Slovakia, Hungary, Romania, Czechia, Slovenia, Serbia, and Montenegro. The project will be implemented in Velký Meder. It will probably not have impacts on other countries.

2. QUALITY

2.1 Concept and methodology

Concept and methodology

Outline the approach and methodology behind the project. Explain why they are the most suitable for achieving the project's objectives. Include ethical and safety considerations to ensure that target groups are not subjected to harm in any way.

Note: Methodology is not a list of activities but are instruments, approaches that will be used, applied and created.

The project will become an important milestone in the partnership of municipalities, if its extension becomes reality. The project implementation will be run in accordance with the activity plan. The activities may be divided into several spheres: cultural activities, social activities, discussions. Cultural activities will be focused on presentation of culture and cultural heritage of the participating nations and minorities from the viewpoint of traditions, folklore, contemporary music; i.e. the activities support preservation of European cultural heritage and at the same time, they present the cultural heritage of European nations. Discussions will open the participants the place for debates about volunteering, work with minorities, engagement of young citizens, and the COVID-19 pandemic. Social activities will contribute to building the relationships between the participants and the present nations of Europe and also to intercultural dialogue. There will be artistic presentations, performances etc. Thanks to them, there will emerge new relations and friendships. The diversity of the project activities is the first step towards its successful implementation and acceptance by the participants. The following work methods will be used in project implementation:

- division of project activities as mentioned earlier
- organization of activities by the project team composed of representatives of all partner municipalities
- implementation of project activities by the participants - citizens of the partner municipalities (they will be active performers as well as the audience)
- division of activities into active ones (direct participation) and passive ones (relaxation, audience)
- engagement of all age categories of participants from the partner municipalities
- presentation of important themes within discussions
- culture will be a daily element of the programme as it is the element of connecting nations, majorities, minorities
- putting emphasis on ordinary citizens and not the representatives of self-governments
- removal of language barriers with help of English language as well as hungarian language, understood by almost all participants (with the exception of the partner from the Czech Republic)
- designation of localities of activities by the EU flag - thus, the organizers identify themselves with the EU and stress the importance of the financial support given by the EU.

The project implementation will be held in the time of withdrawing COVID-19 pandemic. All activities will be governed by the current measures adopted by the home country, the Slovak Republic. The list of participants will be made in order to look for the contacts, the distance shall be kept and the nose and mouth covered. The safety measures will be managed by the project team and the local police of Veľký Meder.

2.2 Consortium set-up

Consortium cooperation and division of roles (if applicable) *(n/a for Town Twinning and Programme Contact Points)*

Describe the participants (Beneficiaries, Affiliated Entities and Associated Partners, if any) and explain how they will work together to implement the project. How will they bring together the necessary expertise? How will they complement each other?

In what way does each of the participants contribute to the project? Show that each has a valid role and adequate resources to fulfil that role.

Note: When building your consortium you should think of organisations that can help you reach objectives and solve problems.

N/A

2.3 Project teams, staff and experts

Project teams and staff		
<p><i>Describe the project teams and how they will work together to implement the project.</i></p> <p><i>List the staff included in the project budget (budget category A) by function/profile (e.g. project manager, senior expert/advisor/researcher, junior expert/advisor/researcher, trainers/teachers, technical personnel, administrative personnel etc. and describe briefly their tasks. Provide CVs of all key actors (if required).</i></p> <p>Note: Please ensure a gender-balanced representation in the composition of project teams and staff performing the action.</p>		
Name and function	Organisation	Role/tasks/professional profile and expertise
Gergő Holényi, project manager	Mesto Veľký Meder	<p>Role: project manager, coordinator for Veľký Meder</p> <p>Tasks: project management, supervising the project preparation, preparation of premises, project monitoring, including milestones, coordination of all partners, participation of people from Veľký Meder and the region in project activities</p> <p>Profile: mayor of Veľký Meder. Management of the town, human resources, experienced in implementation of all projects co-financed by the EU and other grants from Slovak resources.</p>
Gabriela Fabulyová, financial manager	Mesto Veľký Meder	<p>Role: financial manager</p> <p>Tasks: economic management of the project, accounting, paying for invoices, project budget monitoring</p> <p>Profile: several years of financial practice in self-government - chairwoman of the financial department at the municipal office. She is responsible for financial transactions in the town, accounting, financial management in all projects implemented by the municipality of Veľký Meder.</p>
Petr Lžíčář, coordinator for Město Dobruška	Město Dobruška	<p>Role: coordinator for Dobruška</p> <p>Task: coordination of participants from the municipality of Dobruška in individual project activities, dissemination of promotional materials and outputs in the territory of Dobruška, helping with the implementation of activities, encouraging active participation of Dobruška citizens.</p> <p>Profile: mayor of Dobruška, experience with management of people and implementation of projects</p>
Balázs Németh, coordinator for Bácsalmás Város Önkormányzata	Bácsalmás Város Önkormányzata	<p>Role: coordinator for Bácsalmás</p> <p>Task: coordination of participants from the municipality of Bácsalmás in individual project activities, dissemination of promotional materials and outputs in the territory of Bácsalmás, helping with the implementation of activities, encouraging active participation of Bácsalmás citizens.</p> <p>Profile: mayor of Bácsalmás, experience with management of people and implementation of projects</p>

Ferenc Zsolt Vella, coordinator for Ábrahámhegy község önkormányzata	Ábrahámhegy község önkormányzata	<p>Role: coordinator for Ábrahámhegy</p> <p>Task: coordination of participants from the municipality of Ábrahámhegy in individual project activities, dissemination of promotional materials and outputs in the territory of Ábrahámhegy, helping with the implementation of activities, encouraging active participation of Ábrahámhegy citizens.</p> <p>Profile: mayor of Ábrahámhegy, experience with management of people and implementation of projects</p>
Janez Magyar, coordinator for Obcina Lendava	Obcina Lendava	<p>Role: coordinator for Lendava</p> <p>Task: coordination of participants from the municipality of Lendava in individual project activities, dissemination of promotional materials and outputs in the territory of Lendava, helping with the implementation of activities, encouraging active participation of Lendava citizens.</p> <p>Profile: mayor of Lendava, experience with management of people and implementation of projects</p>
Attila Csibi, coordinator for Comuna Sangeorgiu de Padure	Comuna Sangeorgiu de Padure	<p>Role: coordinator for Sangeorgiu de Padure</p> <p>Task: coordination of participants from the municipality of Sangeorgiu de Padure in individual project activities, dissemination of promotional materials and outputs in the territory of Sangeorgiu de Padure, helping with the implementation of activities, encouraging active participation of Sangeorgiu de Padure citizens.</p> <p>Profile: mayor of Sangeorgiu de Padure, experience with management of people and implementation of projects</p>
Milun Todorović, coordinator for Grad Čačak	Grad Čačak	<p>Role: coordinator for Čačak</p> <p>Task: coordination of participants from the municipality of Čačak in individual project activities, dissemination of promotional materials and outputs in the territory of Čačak, helping with the implementation of activities, encouraging active participation of Čačak citizens.</p> <p>Profile: mayor of Čačak, experience with management of people and implementation of projects</p>
Ranko Mišnić, coordinator for Opština Mojkovac	Opština Mojkovac	<p>Role: coordinator for Mojkovac</p> <p>Task: coordination of participants from the municipality of Mojkovac in individual project activities, dissemination of promotional materials and outputs in the territory of Mojkovac, helping with the implementation of activities, encouraging active participation of Mojkovac citizens.</p> <p>Profile: mayor of Mojkovac, experience with management of people and implementation of projects</p>

Outside resources (subcontracting, seconded staff, etc)

If you do not have all skills/resources in-house, describe how you intend to get them (contributions of members, partner organisations, subcontracting, etc).

If there is subcontracting, please also complete the table in section 4. Moreover, ensure that subcontractors are aware of gender mainstreaming and non-discrimination mainstreaming.

The project team mentioned above will manage the project. All the members have enough experience with implementing projects co-financed by the EU as well as by the national funds and financial means. Thus, there is no need to support it by any other stuff by subcontracting.

2.4 Consortium management and decision-making

Consortium management and decision-making (if applicable) *(n/a for Town Twinning and Programme Contact Points)*

Explain the management structures and decision-making mechanisms within the consortium. Describe how decisions will be taken and how regular and effective communication will be ensured. Describe methods to ensure planning and control.

Note: *The concept (including organisational structure and decision-making mechanisms) must be adapted to the complexity and scale of the project.*

N/A

2.5 Project management, quality assurance and monitoring and evaluation strategy

Project management, quality assurance and monitoring and evaluation strategy

Describe the measures planned to ensure that the project implementation is of high quality and completed in time.

Describe the methods to ensure good quality, monitoring, planning and control.

Describe the evaluation methods and indicators (quantitative and qualitative) to monitor and verify the outreach and coverage of the activities and results (including unit of measurement, baseline and target values). The indicators proposed to measure progress should be relevant, realistic and measurable.

Note: *The monitoring and evaluation strategy should also incorporate gender and non-discrimination considerations in order to measure changes and assess impact on gender equality issues. The indicators should be gender responsive so that they can measure gender equality changes over time. For instance, a gender responsive indicator can measure the increase in women's rate of employment or changes in social attitudes towards gender roles in work-life balance. The evaluation should be participatory and inclusive to all stakeholders, ensuring that women's and men's voices are prevalent throughout the entire evaluation process.*

The project management will be responsible for managing the project. Within the managing structure, a project manager will lead the project team. She will be responsible for coordination of all the partners and citizens from the home municipality, as well as manage the project activities, supervise the project preparation and preparation of the venues, and oversee fulfilment of the project aims and milestones. The financial manager will be responsible for the financial management of the project, accounting of the project, processing accounting statements and records and realizing payments. Coordinators from the individual municipalities will coordinate participation of their citizens in the activities, ensure dissemination of the promoting materials and outputs of the project and help with the implementation of activities. This team will lead the overall project implementation. Every member has direct experience with implementing projects co-financed from the European and national financial means.

The project will be implemented, while coordinated by all the partners. Within the preparatory phase, the partners agreed on the individual duties, activity plan and dissemination, i.e. they divided duties and responsibility to ensure a smooth course of the event. That is also why control mechanisms were set – to prevent possible risks during the implementation. Within the project, a mechanism of control will be created, which will have the duty to oversee the project progress. The project team will be charged with such controlling activity. Except control, the mechanism sets also some further mechanisms and rules. They could be divided into external and internal.

The internal control will be performed by the project team with an aim to immediately find and eliminate defects and possible discrepancy of the implemented activities with the activity plan, budget and project aims. The control will be continuous and consist of:

- preparation of documents for the project implementation
- control of accordance of the implemented activities with reality
- control of public procurement and all linked activities
- control of fulfilling the financial network and financial statements
- control of duties arisen from the contracts

The external control will be performed from the side of the donor – an administrator of CERV Programme in a form of control of the project clearance.

Reaching the project results in the most economic way will be ensured by using personal and expert authorities. Due to this, activities will not be divided into internal and external and financial means will be saved, too, as overpricing the activities via an external part will not take place. Moreover, this will enable

a full control over the process of implementation of the activities. It is obvious that the partners do not have enough facilities, means and authorities for all the activities implemented within the project. Therefore, a small part of the budget will be supported externally, too.

The project quality depends to a considerable extent on the planned indicators and mainly on their fulfilment. By fulfilling the measurable indicators, sense of the project and its successful termination will be proved. As the qualitative indicators are measurable with difficulty, quantitative indicators prevail in the chosen indicators.

The project indicators are as the following:

Quantitative indicators:

Number of implemented events: 1

Number of participants in the event: 810 (210 from abroad)

Number of women from the total number of participants: 405

Number of used communication means (media, Internet, promotion): 6

Number of created partnerships: 1

Number of participating countries: 7

Number of partners: 8

Qualitative indicators:

Raised interest in the EU among the young (number of searched themes connected with the EU, raised interest in the projects co-financed by the EU funds)

Equality in opportunities for men and women within the project implementation (attendance lists, photo-documentation)

Participation of all age categories in the project activities (photo-documentation from the activities)

The project encourages creation of other activities after its termination (other mutual activities)

The project has ensured technical and financial sustainability of its outputs (declaration of ensuring the financing of the project and its outputs)

Each from the chosen indicators will provide a possible way of measuring the project success. From the viewpoint of the quantitative indicators, it will be possible to measure the success right after the project ends, whereas the qualitative indicators will show their fulfilment not until several months after the project ends, within a dissemination and monitoring phase.

2.6 Cost effectiveness and financial management

Cost effectiveness and financial management (n/a for prefixed Lump Sum Grants)

Describe the measures adopted to ensure that the proposed results and objectives will be achieved in the most cost-effective way.

Indicate the arrangements adopted for the financial management of the project and, in particular, how the financial resources will be allocated and managed within the consortium.

 Do NOT compare and justify the costs of each work package, but summarize briefly why your budget is cost effective.

N/A

2.7 Risk management

Critical risks and risk management strategy (n/a for Town Twinning)

Describe critical risks, uncertainties or difficulties related to the implementation of your project, and your measures/strategy for addressing them.

Indicate for each risk (in the description) the impact and the likelihood that the risk will materialise (high, medium, low), even after taking account the mitigating measures.

Note: Uncertainties and unexpected events occur in all organisations, even if very well-run. The risk analysis will help you to predict issues that could delay or hinder project activities. A good risk management strategy is essential for good project management. The strategy should also incorporate risk mitigation measures that redress any gender inequalities and multiple discriminatory effects in project implementation. For instance, to ensure full participation of target groups in project activities, gender, age or disability-specific constraints should be taken into account. The target groups may face more than one barrier to access project activities (accessibility barriers; language barriers, availability of childcare provision, etc.). Therefore, it is essential to identify these risks and undertake preventive

measures in order to ensure full participation of women and men in all their diversity in project design and implementation.

Risk No	Description of risk	Work package No	Proposed risk-mitigation measures

3. IMPACT

3.1 Impact and ambition

Impact and ambition

Define the short, medium and long-term effects of the project.

Who are the target groups? How will the target groups benefit concretely from the project and what would change for them? In what way will the gap identified be reduced? How will the activities contribute to improve the situation (difference between starting point/state of play and the situation after the end of the project?) How will the activities contribute to the promotion and advancement of gender equality and non-discrimination mainstreaming?

Does the project aim to trigger change/innovation? If so, describe them and the degree of ambition (progress beyond the status quo).

Note: Results/outcomes are immediate changes that materialise for the target groups after the end of the project (e.g. improved knowledge, increased awareness). Results/outcomes are different to deliverables. Deliverables are activities undertaken and outputs produced with the resources allocated to the project, e.g. training courses, conferences, manuals, video etc.

When defining expected results/outcomes and deliverables please consider if and how they will reduce, maintain, or increase inequalities between women and men, boys and girls, in all their diversity. What gender, age and disability differentiated results can be expected? How expected results will affect women and men, boys and girls from a range of diverse social groups, differently?

The project impacts reflect on the main project themes: change of the perspective on minorities, overcoming barriers and prejudices, and cohesion. We can provide several medium and long-run impacts as follows:

1) Minorities in society. The project will be active in the sphere of coexistence with ethnical minorities. First of all, it will show the cultural elements of ethnical minorities, including the Roma. This could lead to transformed perspectives of the majority towards people using different languages. Indeed, culture may become the bridge of dialogue and mutual cohesion. Then, the participants will learn about successful people coming from ethnical minorities. The members of minorities will be given impulses to live better. The members of majority will have a new perspective on minorities. This would help their mutual cohesion and elimination of marginalization. This is a medium impact.

2) Building the relations between nations and overcoming barriers will be impacts of intercultural dialogue brought about by the project. Within the project, the culture of seven nations and several minorities (including the Roma) will be presented. Thus, the cultural dialogue between the nations will begin. Culture is the universal language, and though it varies throughout countries, it can connect people. This will help in overcoming ethnical and linguistic barriers in this project. The project will emphasize that culture is important in lives of citizens and for the partnership. It is a long-run impact.

3) Cohesion between nations and within the EU will be a medium impact. At the same time, it is the impact supporting the development of European awareness. The project is conceptualized so that it is able to help in getting people together, also with the EU. Within the project, the current themes will come to the forefront: e.g., intercultural engagement, EU history, European values. These themes will be accompanied by presentations and the participants will take part in discussions thanks to which they will have the opportunity to take part. European citizens are active citizens, therefore the activities will lead the citizens to becoming European citizens. Volunteering will also be the issue of the project. It is one of the pillars of active citizenship. Within the project, the participants will learn what is volunteering, how they can become volunteers and how they can help their communities. The project will open new options for the development of European citizenship. European citizenship and the EU in general will become the elements of cohesion in the partnership.

4) Active engagement of all generations in project implementation. It says that all participants are

important, regardless of their age. In the programme there are activities suitable for young people as well as those suitable for presentation of knowledge, experience and lives of older citizens. All generations are linked by social activities enabling solidarity among the citizens, generations and nations. This is another long-run impact of the project.

The target groups of the project are citizens of the partner municipalities. They are classified according to the target groups, and the project opens space for each of them. The special attention is paid to youth and children. There are several activities for them, leading them towards the EU. Children will be informed about the EU in a funny way. Youth will become acquainted with the values of tolerance, solidarity, and non-discrimination. The elderly will also be participants and one of the target groups. Their role in the project lies in transferring knowledge and cultural habits. They will learn about active ageing. The final target group is the adults. They will take part in all activities. Through discussions on diverse themes they will learn new information, and find new friends thanks to culture. The project will avoid any age-based discrimination. The representatives of self-governments will be the smallest target group. They will have the opportunity to exchange experience with their colleagues from other municipalities and countries. They will discuss mainly about handling the COVID-19 situation, cooperation with active citizens, work with minorities and the programmes and projects supported by the ESIF.

3.2 Communication, dissemination and visibility

Communication, dissemination and visibility of funding

Describe the communication and dissemination activities which are planned in order to promote the activities/results and maximise the impact (to whom, which format, how many, etc.). Clarify how you will reach the target groups, relevant stakeholders, policymakers and the general public and explain the choice of the dissemination channels.

Describe how the visibility of EU funding will be ensured.

Communication and dissemination activities should also contribute to the promotion of gender equality and non-discrimination. Communication materials should use gender inclusive language and positive visual representations. E.g.: When developing videos or leaflets ensure that women and men, in all their diversity, are equally represented in a non-stereotypical fashion and portrayed in active empowered roles. In addition, consider using communication channels that they are accessible to general audience, in particular to persons with disabilities, or people from marginalised groups.

The dissemination helps in spreading the project ideas and results among the general public. Therefore, it is an important part of the project monitoring. The following dissemination tools will be used in the project: DVDs, website, municipal newspapers, municipal TV, other promotion tools.

DVDs will be prepared from photographs and videos taken during the event. They will be produced by professionals, so that the memories from the event can stay alive. After the project conclusion, the material will be processed and published as a digital DVD-Video medium. At the same time, the final video will be published in social media. The professional photographs will be published on the project website. It is an independent website with information about the project, its dissemination tools, video, conclusions and the final report. The tool will be the most used one for the dissemination. Therefore, the website will be of high quality. The local newspapers of Veľký Meder will publish a long article after the project conclusion. The article will contain the project conclusion and photographs. Another dissemination tool is broadcasting of local TV in Veľký Meder. It will document the project and broadcast material from the activities. The last dissemination tool is represented by leaflets and posters which will promote the event before its implementation. The leaflets will be in A5 format, with event programme in all languages of the partners - Slovak, Czech, Romanian, Serbian, Hungarian, Slovenian, and Montenegrin. The poster in A2 format will also inform about the event programme. There will be seven language versions of the poster. The initial project activity is also counted as a communication tool. During the event opening, the project will be introduced together with the support granted by the CERV Programme.

The communication instruments will be prepared as follows:

- 1) Leaflets – number: 800 pcs, 7 language versions, time: 4 before the event
- 2) Posters – number: 80 pcs, 7 language versions, time: 4 weeks before the event
- 3) Information on websites – invitations published on websites of the partners 4 weeks before the event
- 4) Project website – number: 1 piece, 3 language versions: SK, HU, EN, time: 2 weeks after the project conclusion
- 5) DVDs – number: 800 pcs, time: 6 weeks after the project

- 6) Film for social media – number: 1 piece, time: 6 weeks after the project conclusion
- 7) Municipal newspapers - article, number: 1, published in the edition following the project conclusion
- 8) Municipal TV - material published in the course of the event and after it

The dissemination tools will be prepared for the direct target groups and the general public. As it has been mentioned earlier, leaflets and posters serve the promotion. They will get to the mailboxes of citizens, but they will also be put up in public places, where they can be randomly approached by anyone. DVDs will be handed over during diverse occasions as examples of best practice. The website will be publicly available and you can find links to it at all partners' websites. This way, the project produces important multiplier effects, as impacts and results will be spread among the general public.

The important factor and link between the dissemination and promotion of the project is emphasis on the financial support of the European Commission in the project implementation. This would be reached by printing the CERV programme logo on all used and published materials. Every issued promoting material, either offline or online, will contain the EU flag and other requisites concerning the grant decision. These will refer to the EU support for the project. The EU flag or rather the EU flag with the text 'Co-financed by the EU programme Citizens, Equality, Rights and Values' will be placed on all the venues of the project implementation. Except this, the EU support will be emphasised also during the opening and closing ceremony. Due to this, organizers will remind the present public that the project is co-financed by the European Union. The issued printed materials – leaflets and posters will also contain the EU flag with the text, as well as the printed media and the website. Due to the above mentioned means of communication, the information about the EU financial support for the project will reach the wide public and citizens will be able to know another sphere, which is being supported by the European financial mechanisms.

3.3 Sustainability and continuation

Sustainability, long-term impact and continuation

Describe the follow-up of the project after the EU funding ends. How will the project impact be ensured and sustained?

What will need to be done? Which parts of the project should be continued or maintained? How will this be achieved? Which resources will be necessary to continue the project? How will the results be used?

Are there any possible synergies/complementarities with other (EU funded) activities that can build on the project results?

The continuation of the project activities depends on engagement of citizens in the partnership. In case it is successful, the partnership will set off to a new, European road. In the continuation, it will be necessary to involve more European themes in the partnership. Another issue is potential extension of the partnership to new forms of cooperation, e.g. involvement of educational institutions, cultural institutions or NGOs to the partnership.

The sustainability of the project results is closely related to all project partners and their own financial resources. The project outputs will be owned by all partners. The outputs are not counted as assets. Their role is to spread the ideas of solidarity, tolerance, multiculturalism and importance of the EU. These ideas will be presented on the website. The partner responsible for the website is the municipality of Veľký Meder. It will be a subsite to the website of the municipality. The rest of the project outputs will be shared by all the partners. By mutual ownership of such outputs, the mutual partnership will be confirmed for the future, too, i.e. all the partners will continue to cooperate in making the mutual project outputs better as well as the partnership, by its enriching with new areas of solutions. The financial sustainability of the project is tightly connected also with personal financial means of the individual partners. Thus, we may assume that the partners have ensured sufficient personal means for financing the partnership in the future, too.

After the co-financing from the EU funds as well as from the personal means, the partnership will be renewed. The partners will mutually recast the partnership towards an active base for an exchange of information and experience. Creation of friendship among citizens will also help the sustainability. Due to this, the partnership will be able to work not only due to the representatives of the municipalities, but also due to friendships of citizens. They themselves will be curious, when the partnership will move towards other mutual projects and events. The partners will hence be pushed to seek solutions and means for the continuation of the partnership as well as for the sustainability of the project results and

outputs.

Strengthening the partnership, which has been stagnating, is a long-term project impact. The partners will gain an opportunity to cooperate again and thus lay foundations for making new friendships among citizens. The EU will perform as an intermediary.

4. WORK PLAN, WORK PACKAGES, TIMING AND SUBCONTRACTING

4.1 Work plan

Work plan

Provide a brief description of the overall structure of the work plan (list of work packages or graphical presentation (Pert chart or similar)).

The project work plan was set during the first phase. It expresses the mutual interest of all the partners to renew cooperation and gain support for it from the side of active citizens. The structure of the work plan was created as the following:

- Mutual conversations of the partners, seeking themes and mutual issues
- Setting the themes the mutual project will be based on
- Setting the activity plan
- Establishing the project team
- Promotion and dissemination

The work plan consists of the activities as: workshops, trainings, debates, presentations, awareness-raising activities, exchanges and dissemination of good practices, and communication activities.

The activities of the work plan could be divided into the following themes:

- Activities focused on presentation of the European Union and its benefits - workshops and discussions on the future of the EU, European values and learning about the EU
- Activities supporting multicultural dialogue - activities focused on presentation of culture and cultural diversity of Europe
- Activities focused on the COVID-19 pandemic - discussions, exchange of experience, looking for solutions suited for municipalities and NGOs in the post-COVID era
- Activities supporting overcoming prejudices, supporting gender equality and non-discrimination - workshops, discussions on ethnical minorities, inclusion, solidarity

The structure of the work plan:

- 1) Organizing structure – an organizing team will be responsible for implementing the work plan. Its members are mentioned above. Its duty is to ensure the project concerning the organizing viewpoint – prepare venues for the activities, ensure accommodation, meals, transport and participants.
- 2) Hierarchy of duties – using just one work place is sufficient for the project. Individual duties within the project implementation are set as the following: the project team is responsible for the project and thus, it will ensure fundamental requirements and premises for the implementation. Citizens from the partner municipalities will fulfil the activities. The organizing team will ensure lecturers and lectors.
- 3) Defining targets and results – already in the preparatory phase, the project target was set: to ask essential questions of today's era and seek answers to them. Renewing the partnership, active citizens, international friendships, improved position of the EU and solidarity among nations should all be the project results.
- 4) Setting tasks and deliverables – these are set in a work package below.
- 5) Estimation of costs – the project costs for the foreign participants will consist of travel and accommodation costs, while the organizing costs will be paid by the CERV Programme fund and personal funds of the municipality of Veľký Meder.

4.2 Work packages and activities

WORK PACKAGES

This section concerns a detailed description of the project activities.

Group your activities into work packages. A work package means a major sub-division of the project. For each work package, enter an objective (expected outcome) and list the activities, milestones and deliverables that belong to it. The grouping should be logical and guided by identifiable outputs.

Projects should normally have a minimum of 2 work packages. WP1 should cover the management and coordination activities (meetings, coordination, project monitoring and evaluation, financial management, progress reports, etc) and all the activities which are cross-cutting and therefore difficult to assign to another specific work package (do not try splitting these activities across different work packages). WP2 and further WPs should be used for the other project activities. You can create as many work packages as needed by copying WP1.

For very simple projects, it is possible to use a single work package for the entire project (WP1 with the project acronym as WP name). For Lump Sum Grants, each event should be one work package.

Work packages covering financial support to third parties  only allowed if authorised in the Call document) must describe the conditions for implementing the support (for grants: max amounts per third party; criteria for calculating the exact amounts, types of activity that qualify (closed list), persons/categories of persons to be supported and criteria and procedures for giving support; for prizes: eligibility and award criteria, amount of the prize and payment arrangements).

 Please limit the number of work packages and reduce the number of deliverables (max 10 to 15 for the entire project). (n/a for Lump Sum Grants).

 Enter each activity/milestone/output/outcome/deliverable only once (under one work package).

Work Package 1

Work Package 1: [Name, e.g. Project management and coordination]

Duration:

M1 – M6

Lead Beneficiary:

Mesto Velký Meder

Objectives

List the specific objectives to which this work package is linked.

- Strengthening the feeling of solidarity in Europe
- Elimination of prejudices against ethnical minorities
- Ensuring active participation of citizens at the local level
- Attracting young people to the EU
- Linking citizens and creating friendships

Activities (what, how, where) and division of work

Provide a concise overview of the work (planned tasks). Be specific and give a short name and number for each task.

Show who is participating in each task: Coordinator (COO), Beneficiaries (BEN), Affiliated Entities (AE), Associated Partners (AP), indicating **in bold** the task leader.

Add information on other participants' involvement in the project e.g. subcontractors, in-kind contributions.

Note:

In-kind contributions: In-kind contributions for free are cost-neutral, i.e. cannot be declared as cost. Please indicate the in-kind contributions that are provided in the context of this work package. The Coordinator remains fully responsible for the coordination tasks, even if they are delegated to someone else. Coordinator tasks cannot be subcontracted (see Model Grant Agreement).

If there is subcontracting, please also complete the table below.

Task No (continuous numbering linked to WP)	Task Name	Description	Participants		In-kind Contributions and Subcontracting (Yes/No and which)
			Name	Role (COO, BEN, AE, AP, OTHER)	
T1.1	Welcome address and opening of the event	The aim of the activity is to introduce the project, its goals and planned results and outcomes. In the activity, there will be introduced the new CERV programme and the financial support from the EU. Media will be invited.	Mesto Veľký Meder Mesto Dobruška, Bácsalmás Város Önkormányzata, Ábrahámhegy Község Önkormányzata, Obcina Lendava, Comuna Sangeorgiu de Padure, Grad Čačak, Opština Mojkovac	COO AP	NO
T1.2	2 years with corona virus - exhibition of photographs about the life during the COVID-19 pandemic	Exhibition of photographs. Focus on the theme of the COVID-19 pandemic and its consequences. Debate with authors. The exhibition will be open, photographs will come from several authors.	Mesto Veľký Meder Mesto Dobruška, Bácsalmás Város Önkormányzata, Ábrahámhegy Község Önkormányzata, Obcina Lendava, Comuna Sangeorgiu de Padure, Grad Čačak, Opština Mojkovac	COO AP	NO

T1.3	Welcoming new partners - introduction of new partner municipalities from Serbia and Montenegro	Introduction of municipalities which have just entered the partnership. The new partners from Serbia and Montenegro will introduce their history, interesting places and current information. Thus, the other partners and their citizens will be able to learn more about them.	Mesto Veľký Meder Město Dobruška, Bácsalmás Város Önkormányzata, Ábrahámhegy Község Önkormányzata, Obcina Lendava, Comuna Sangeorgiu de Padure, Grad Čačak, Opština Mojkovac	COO AP	NO
T1.4	On Europe – workshop for kids, learning about the EU in a playful way	Organization of workshop for the youngest participants. There will be diverse games prepared for children (memory game with flags of the EU countries, puzzle with the map of Europe etc.), thanks to which they will learn some facts about the EU. This way, they will start their journey as European citizens.	Mesto Veľký Meder Město Dobruška, Bácsalmás Város Önkormányzata, Ábrahámhegy Község Önkormányzata, Obcina Lendava, Comuna Sangeorgiu de Padure, Grad Čačak, Opština Mojkovac	COO AP	NO
T1.5	Reflection on the COVID-19 pandemic - debate on adopted measures and differences in individual countries, exchange of best practices	Organization of the activity focused on the mutual discussion and presentation of best practices regarding the COVID-19 pandemic at the local level. Each of the partners has different experiences, each of them came through a different scale of measures with different results. The partners will discuss all of it and exchange experiences.	Mesto Veľký Meder Město Dobruška, Bácsalmás Város Önkormányzata, Ábrahámhegy Község Önkormányzata, Obcina Lendava, Comuna Sangeorgiu de Padure, Grad Čačak, Opština Mojkovac	COO AP	NO
T1.6	Debate on Europe – introduction of concrete successes of the EU within the 64 years of its existence, discussion on the future of the EU	Organization of an educational activity. Theme: European Union and their successes throughout history. The citizens will be able to learn more about the EU, its evolution and successes. The educational activity will also	Mesto Veľký Meder Město Dobruška, Bácsalmás Város Önkormányzata, Ábrahámhegy Község	COO AP	NO

		be about the future of the EU. This way, the European awareness will be sown in the participants.	Önkormányzata, Obcina Lendava, Comuna Sangeorgiu de Padure, Grad Čačak, Opština Mojkovac		
T1.7	Roma minority and its culture - workshop and presentation of Roma culture	Presentation of culture of an ethnical minority - Roma culture. The goal is to emphasize the cultural identity of the minority and enrich the cultural richness of the partnership by new elements. It should help in eliminating the prejudices against the Roma.	Mesto Veľký Meder Město Dobruška, Bácsalmás Város Önkormányzata, Ábrahámhegy Község Önkormányzata, Obcina Lendava, Comuna Sangeorgiu de Padure, Grad Čačak, Opština Mojkovac	COO AP	NO
T1.8	Social activities in the evening	The activity is focused on giving space to the citizens from the seven countries to meet each other, exchange information and communicate. Two new partners will be welcome, together with their citizens, as they are completely new to all partners.	Mesto Veľký Meder Město Dobruška, Bácsalmás Város Önkormányzata, Ábrahámhegy Község Önkormányzata, Obcina Lendava, Comuna Sangeorgiu de Padure, Grad Čačak, Opština Mojkovac	COO AP	NO
T1.9	Competition in cooking traditional meals	Food is an element of culture suitable for overcoming ethnical barriers. The communication and specificities of various nations will be supported. In this activity, food plays the main role.	Mesto Veľký Meder Město Dobruška, Bácsalmás Város Önkormányzata, Ábrahámhegy Község Önkormányzata, Obcina Lendava, Comuna Sangeorgiu de Padure, Grad Čačak, Opština Mojkovac	COO AP	NO

T1.10	Promenade fair of traditions	Another element of culture, helpful in overcoming the barriers. Support for communication and mutual presentation of specificities of nations. This time, traditions play the main role.	Mesto Veľký Meder Město Dobruška, Bácsalmás Város Önkormányzata, Ábrahámhegy Község Önkormányzata, Obcina Lendava, Comuna Sangeorgiu de Padure, Grad Čačak, Opština Mojkovac	COO AP	NO
T1.11	How to become an active citizen - introduction of volunteers and their organizations from the partner municipalities, debate on activation of citizens	The activity is focused on volunteering. The main task is to learn about the partner organizations dedicated to volunteering. This way, the people will become interested in active participation in their communities. The debate will support the increase of interest in volunteering.	Mesto Veľký Meder Město Dobruška, Bácsalmás Város Önkormányzata, Ábrahámhegy Község Önkormányzata, Obcina Lendava, Comuna Sangeorgiu de Padure, Grad Čačak, Opština Mojkovac	COO AP	NO
T1.12	Ethnic minorities in Europe - seminar with the organization Fórum: inštitút which is aimed at the research of ethnical minorities	Organization of the seminar on life of ethnical minorities in European countries led by the above mentioned organization. The aim is to learn about ethnical minorities in Slovakia and throughout Europe. The organization publishes expert articles and publications focused on this issue. The results of their work will be presented in the project. The common discussion will support learning about minorities in the EU.	Mesto Veľký Meder Město Dobruška, Bácsalmás Város Önkormányzata, Ábrahámhegy Község Önkormányzata, Obcina Lendava, Comuna Sangeorgiu de Padure, Grad Čačak, Opština Mojkovac	COO AP	NO
T1.13	Young people and the EU – debate of young people about education and culture in the EU	The activity is focused on young people and learning about the EU. More specifically, it will deal with cultural and educational policy. This way, the youth will be less sceptical towards the EU and more aware of its benefits.	Mesto Veľký Meder Město Dobruška, Bácsalmás Város Önkormányzata, Ábrahámhegy Község	COO AP	NO

			Önkormányzata, Obcina Lendava, Comuna Sangeorgiu de Padure, Grad Čačak, Opština Mojkovac		
T1.14	Culture of nations – performances of ensembles on the square	Presentation of cultural diversity of the partnership and the EU. The richness of cultural environment in Europe is enormous. By this presentation we want to show the role of culture in overcoming ethnical barriers. The goal is to understand each other, to communicate, and to know each other better.	Mesto Veľký Meder Město Dobruška, Bácsalmás Város Önkormányzata, Ábrahámhegy Község Önkormányzata, Obcina Lendava, Comuna Sangeorgiu de Padure, Grad Čačak, Opština Mojkovac	COO AP	NO
T1.15	Concerts on the square	Presentation of another element of cultural diversity of the partnership and the EU. The goal is to support the elimination of intercultural barriers and to foster mutual dialogue.	Mesto Veľký Meder Město Dobruška, Bácsalmás Város Önkormányzata, Ábrahámhegy Község Önkormányzata, Obcina Lendava, Comuna Sangeorgiu de Padure, Grad Čačak, Opština Mojkovac	COO AP	NO
T1.16	Holy Mass	Involvement of religion as a part of identity of several nations. The activity shall fulfil the needs of a part of the citizens.	Mesto Veľký Meder Město Dobruška, Bácsalmás Város Önkormányzata, Ábrahámhegy Község Önkormányzata, Obcina Lendava, Comuna Sangeorgiu de Padure, Grad Čačak, Opština Mojkovac	COO AP	NO

T1.17	Solidarity and integration – debate with members of minorities who escaped the marginalized environment	Organization of the mutual debate on ethnical minorities. The members of minorities who succeeded in escaping from the marginalized environment will be presented. They represent positive examples especially for younger members of minorities. The majority will have the occasion to learn that prejudices are not fair.	Mesto Veľký Meder Město Dobruška, Bácsalmás Város Önkormányzata, Ábrahámhegy Község Önkormányzata, Obcina Lendava, Comuna Sangeorgiu de Padure, Grad Čačak, Opština Mojkovac	COO AP	NO
T1.18	Success thanks to the EU – introduction of successful projects supported by the ESIF	Presentation of successful projects supported by the ESIF. Dissemination of good news about the EU and about best practices. The activity can help in shifting the views on the EU.	Mesto Veľký Meder Město Dobruška, Bácsalmás Város Önkormányzata, Ábrahámhegy Község Önkormányzata, Obcina Lendava, Comuna Sangeorgiu de Padure, Grad Čačak, Opština Mojkovac	COO AP	NO
T1.19	Culture of ethnical minorities	Presentation of cultural diversity of ethnical minorities. The richness of culture in ethnical minorities is huge. This presentation strives to show the role of culture in overcoming ethnical barriers.	Mesto Veľký Meder Město Dobruška, Bácsalmás Város Önkormányzata, Ábrahámhegy Község Önkormányzata, Obcina Lendava, Comuna Sangeorgiu de Padure, Grad Čačak, Opština Mojkovac	COO AP	NO
T1.20	Research on Europe – discussion with representatives of the partner municipalities, asking about their views on the EU, the partnership, and the project	Common discussion and exchange of views on the EU, the partnership, and the project. The opinions of citizens on the proposed themes will be collected and incorporated into the project results. It is an internal poll.	Mesto Veľký Meder Město Dobruška, Bácsalmás Város Önkormányzata, Ábrahámhegy Község	COO AP	NO

			Önkormányzata, Obcina Lendava, Comuna Sangeorgiu de Padure, Grad Čačak, Opština Mojkovac		
T1.21	Evaluation and conclusion of the event	The aim of the activity is to summarize the results and specify what did not go well. At the same time the home town citizens will say goodbye to the foreigners.	Mesto Veľký Meder Město Dobruška, Bácsalmás Város Önkormányzata, Ábrahámhegy Község Önkormányzata, Obcina Lendava, Comuna Sangeorgiu de Padure, Grad Čačak, Opština Mojkovac	COO AP	NO

Milestones and deliverables (outputs/outcomes)

Milestones are control points in the project that help to chart progress. They may correspond to the completion of a key deliverable allowing the next phase of the work to begin. Use them only for major outputs in complex projects. Otherwise leave the section on milestones empty. Please limit the number of milestones by work package.

Means of verification are how you intend to prove that a milestone has been reached. If appropriate, you can also refer to indicators.

Deliverables are project outputs which are submitted to show project progress (any format). Refer only to major outputs. Do not include minor sub-items or internal working papers, meeting minutes, etc. Limit the number of deliverables (and their data volume) to max 10-15 for the entire project. You may be asked to further reduce the number during grant preparation.

For deliverables such as meetings, events, seminars, trainings, workshops, webinars, conferences, etc., enter each deliverable separately and provide the following in the 'Description' field: invitation, agenda, signed presence list, target group, number of estimated participants, duration of the event, report of the event, training material package, presentations, evaluation report, feedback questionnaire.

For deliverables such as manuals, toolkits, guides, reports, leaflets, brochures, training materials etc., add in the 'Description' field: format (electronic or printed), language(s), approximate number of pages and estimated number of copies of publications (if any).

For each deliverable you will have to indicate a due month by when you commit to upload it in the Portal. The due month of the deliverable cannot be outside the duration of the work package and must be in line with the timeline provided below. Month 1 marks the start of the project and all deadlines should be related to this starting date.

The labels used mean:

Public — fully open (🚩 automatically posted online on the Project Results platforms)

Sensitive — limited under the conditions of the Grant Agreement

EU classified — RESTREINT-UE/EU-RESTRICTED, CONFIDENTIEL-UE/EU-CONFIDENTIAL, SECRET-UE/EU-SECRET under Decision [2015/444](#).

Milestone No (continuous numbering not linked to WP)	Milestone Name	Work Package No	Lead Beneficiary	Description	Due Date (month number)	Means of Verification

Work Package ...

To insert work packages, copy WP1 as many times as necessary.

Overview of Work Packages (n/a for Lump Sum Grants)

Staff effort per work package

Fill in the summary on work package information and effort per work package. Make sure the figures are consistent with the section estimated budget from each work package (if applicable). There is no automatic reconciliation function across the different tables within this document.

Work Package No	Work Package Title	Lead Participant No	Lead Participant Short Name	Start Month	End Month	Person-Months
1						
2						
3						
4						
					Total Person-Months	

Staff effort per participant

Fill in the effort per work package and Beneficiary/Affiliated Entity.

Please indicate the number of person/months over the whole duration of the planned work. Make sure the figures are consistent with the section estimated budget from each work package (if applicable). There is no automatic reconciliation function across the different tables within this document.

*Identify the work-package leader for each work package by showing the relevant person/month figure in **bold**.*

4.4 Subcontracting**Subcontracting**

Give details on subcontracted project tasks (if any) and explain the reasons why (as opposed to direct implementation by the Beneficiaries/Affiliated Entities).

Subcontracting — Subcontracting means the implementation of 'action tasks', i.e. specific tasks which are part of the EU grant and are described in Annex 1 of the Grant Agreement.

Note: Subcontracting concerns the outsourcing of a part of the project to a party outside the consortium. It is not simply about purchasing goods or services. We normally expect that the participants have sufficient operational capacity to implement the project activities themselves. Subcontracting should therefore be exceptional.

Include only subcontracts that comply with the rules (i.e. best value for money and no conflict of interest; no subcontracting of coordinator tasks). Make sure that subcontractors are aware of the principles of gender mainstreaming and non-discrimination mainstreaming.

Work Package No	Subcontract No (continuous numbering linked to WP)	Subcontract Name (subcontracted action tasks)	Description (including task number and BEN to which it is linked)	Estimated Costs (EUR)	Justification (why is subcontracting necessary?)	Best-Value-for-Money (how do you intend to ensure it?)
1	S1.1	N/A				
1	S1.2	N/A				

Other issues:

If subcontracting for the project goes beyond 30% of the total eligible costs, give specific reasons.

N/A

5. OTHER

5.1 Ethics and EU values

Ethics and EU values

Describe ethics issues that may arise during the project implementation and the measures you intend to take to solve/avoid them.

Describe how you will ensure gender and non-discrimination mainstreaming in the project cycle. This means integrating gender equality and non-discrimination considerations in the design, implementation, monitoring and evaluation of project activities. Projects activities should be pro-active and contribute to the equal empowerment of women and men, girls and boys, in all their diversity, and ensure that they achieve their full potential, enjoy the same rights and opportunities. Gender and non-discrimination mainstreaming are a key mechanism for achieving gender equality and combating multiple and intersecting discrimination. In the delivery of project activities gender mainstreaming shall be ensured by systematically monitoring access, participation, and benefits among different genders, and by incorporating remedial action that redresses any gender inequalities and discriminatory effects in implementation of planned activities. The activities shall also seek to reduce levels of discrimination suffered by particular groups (as well as those at risk of multiple discrimination) and to improve equality outcomes for individuals.

If your project has a direct or indirect impact on children and their rights, indicate it clearly here. Make sure that your project is based on a child rights approach, i.e. that all the rights of the EU Charter of Fundamental Rights and the United Nations Convention on the Rights of the Child (UNCRC) and the Optional protocols, are promoted, respected, protected and fulfilled. The project should address children as rights holders and should ensure their participation in the design and implementation of the project. If you will have direct contacts with children you will have to provide a child protection policies in line with the [Keeping Children Safe Child Safeguarding Standards](#).

Explain how you intend to address privacy/data protection issues related to data collection, analysis and dissemination.

Outline measures to be taken and the policies in place to guarantee full compliance with the EU values mentioned in Article 2 of the Treaty on the European Union and Article 21 of the EU Charter of Fundamental Rights.

The ethical problems which may arise at the event may be induced by the multicultural character of the event and meeting of several nations at one place. There may be racially motivated problems. The task of the project is to avoid such problems within the activities. Meeting of people from seven countries is aimed at overcoming the mutual barriers and eliminating prejudices - the problems existing out of the context of the project shall also be avoided.

The project is focused on elimination of prejudices against other people, minorities, other nations. It gives floor to equal opportunities and non-discrimination. The European values will be present in all project activities. Thus, citizens will always be central regardless if they are the elderly, children, men, women or members of minorities. The project will be absolutely non-discriminatory.

The participants of the project will belong to all partner municipalities, all age groups and both sexes. The aim is to provide every citizen from each partner municipality with an opportunity to meet new people, make new friendships, learn new language, or get to know new culture. Moreover, knowing the EU and its importance is provided for everyone. Participation in every activity is voluntary – everyone could decide (a woman, man, senior or the young) whether to participate in the activity or not. Due to this, equality of opportunities will be provided and elements of discrimination will be eliminated.

Children will become one category of participants, too. Special activities as e.g. creative workshops and a presentation of Europe will be created for them. Within the bounds of their abilities, children will participate also in other activities. That is why the project has an impact on them, too. It is a positive impact, mainly on finding new friends and knowing new things. Participation of children will follow the documents of fundamental rights of children at the European and world level.

During the project implementation all the rights of the EU Charter of Fundamental Rights and the United Nations Convention on the Rights of the Child (UNCRC) and the Optional protocols, will be promoted, respected, protected and fulfilled. The project will address children as rights holders and should ensure their participation in the design and implementation of the project. These measures are based on the following set of principles:

- All children have equal rights to protection from harm
- Everybody has a responsibility to support the protection of children.
- The Municipality has a duty of care to children with whom they work, are in contact with, or who are affected by their work and operations.
- All actions on child safeguarding are taken in the best interests of the child, which are paramount.

Moreover, the Municipality will ensure in the event:

- Informed consent: participants and their families will be made aware of the purpose of the project, and its activities, so that the participant is able to make an informed decision as to whether they will participate in it or not. Additional information will also be provided if participant becomes distressed in any way during their participation.
- Voluntary participation: participants are free to withdraw their participation at any time. Explanations are also not required.
- Do no harm: Harm can be both physical and/or psychological and therefore can be in the form of: stress, pain, anxiety, diminishing self-esteem or an invasion of privacy. It is imperative that the activities do not in any way harm (unintended or otherwise) participants.
- Data protection and privacy: the project will follow the EU General Data Protection regulation (GDPR) for what concerns the acquisition, use and diffusion of participants' personal data.

5.2 Security

Security

Not applicable.

6. DECLARATIONS

Double funding

Information concerning other EU grants for this project

 Please note that there is a strict prohibition of double funding from the EU budget (except under EU Synergies actions).

YES/NO

We confirm that to our best knowledge neither the project as a whole nor any parts of it have benefitted from any other EU grant (including EU funding managed by authorities in EU Member States or other funding bodies, e.g. Erasmus, EU Regional Funds, EU Agricultural Funds, European Investment Bank, etc). If NO, explain and provide details.

YES

We confirm that to our best knowledge neither the project as a whole nor any parts of it are (nor will be) submitted for any other EU grant (including EU funding managed by authorities in EU Member States or other funding bodies, e.g. Erasmus, EU Regional Funds, EU Agricultural Funds, European Investment Bank, etc). If NO, explain and provide details.

YES

Financial support to third parties (if applicable)

If in your project the maximum amount per third party will be more than the threshold amount set in the Call document, justify and explain why the higher amount is necessary in order to fulfil your project's objectives.

N/A

The financial support is designed for direct participants only – citizens from the partner municipalities of Ábrahámhegy (HU), Bácsalmás (HU), Lendava (SI), Sängeorgiu de Padura (RO), Dobruška (CZ), Čačak (RS), Mojkovac (ME).

The consortium hereby confirms that:

The information provided is complete, reliable and true.

The lump sum contributions declared are eligible (in particular, the work packages have been completed and the work has been properly implemented and/or the results were achieved; see Article 6).

The proper implementation of the action/achievement of the results can be substantiated by adequate records and supporting documentation that will be produced upon request or in the context of checks, reviews, audits and investigations (see Articles 19, 21 and 25).

ANNEX 5

SPECIFIC RULES

INTELLECTUAL PROPERTY RIGHTS (IPR) — BACKGROUND AND RESULTS — ACCESS RIGHTS AND RIGHTS OF USE (— ARTICLE 16)

Rights of use of the granting authority on results for information, communication, dissemination and publicity purposes

The granting authority also has the right to exploit non-sensitive results of the action for information, communication, dissemination and publicity purposes, using any of the following modes:

- **use for its own purposes** (in particular, making them available to persons working for the granting authority or any other EU service (including institutions, bodies, offices, agencies, etc.) or EU Member State institution or body; copying or reproducing them in whole or in part, in unlimited numbers; and communication through press information services)
- **distribution to the public** in hard copies, in electronic or digital format, on the internet including social networks, as a downloadable or non-downloadable file
- **editing** or **redrafting** (including shortening, summarising, changing, correcting, cutting, inserting elements (e.g. meta-data, legends or other graphic, visual, audio or text elements extracting parts (e.g. audio or video files), dividing into parts or use in a compilation
- **translation** (including inserting subtitles/dubbing) in all official languages of EU
- **storage** in paper, electronic or other form
- **archiving** in line with applicable document-management rules
- the right to authorise **third parties** to act on its behalf or sub-license to third parties, including if there is licensed background, any of the rights or modes of exploitation set out in this provision
- **processing**, analysing, aggregating the results and **producing derivative works**
- **disseminating** the results in widely accessible databases or indexes (such as through ‘open access’ or ‘open data’ portals or similar repositories, whether free of charge or not.

The beneficiaries must ensure these rights of use for the whole duration they are protected by industrial or intellectual property rights.

If results are subject to moral rights or third party rights (including intellectual property rights or rights of natural persons on their image and voice), the beneficiaries must ensure that they

comply with their obligations under this Agreement (in particular, by obtaining the necessary licences and authorisations from the rights holders concerned).

COMMUNICATION, DISSEMINATION AND VISIBILITY (— ARTICLE 17)

Additional communication and dissemination activities

The beneficiaries must engage in the following additional communication and dissemination activities:

- present the project (including project summary, coordinator contact details, list of participants, European flag and funding statement and project results) on the beneficiaries' websites or social media accounts
- for actions involving **publications**, mention the action and the European flag and funding statement on the cover or the first pages following the editor's mention
- for actions involving public **events**, display signs and posters mentioning the action and the European flag and funding statement
- upload the public **project results** to the Rights and Values Project Results platform, available through the Funding & Tenders Portal.

This electronic receipt is a digitally signed version of the document submitted by your organisation. Both the content of the document and a set of metadata have been digitally sealed.

This digital signature mechanism, using a public-private key pair mechanism, uniquely binds this eReceipt to the modules of the Funding & Tenders Portal of the European Commission, to the transaction for which it was generated and ensures its full integrity. Therefore a complete digitally signed trail of the transaction is available both for your organisation and for the issuer of the eReceipt.

Any attempt to modify the content will lead to a break of the integrity of the electronic signature, which can be verified at any time by clicking on the eReceipt validation symbol.

More info about eReceipts can be found in the FAQ page of the Funding & Tenders Portal.

(<https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/support/faq>)
