

**All of the following technical parameters must comply with SWIFT standards.**

The documentation can be found in the internal environment of the website [www.swfit.com](http://www.swfit.com)

**Minimum configuration requirements:**

Two redundant dedicated access lines for connection to SWIFT.

Primary line with dual power supply for the router and secondary line with single power supply for the router.

Both primary & back up connections are managed by one company, but mediated by different operators.

The minimum transmission speed of each line must be XXXXX kbits/s.

**Installation work:**

Installation work is required during the working hours of the working week.

Installation work will begin at the beginning of the fulfillment of the subject of the contract.

**Special requirements:**

Fully managed service.

Dedicated channel based on a private IP backbone network.

Guaranteed bandwidth.

Worldwide availability.

Access media independence.

Highest possible network redundancy, preventing a single point of failure.

**Additional information:**

SWIFT connection address: State Treasury building, Radlinskeho 32, 811 07 Bratislava,

Available operators in the connection area: Orange SK, SWAN, SaNet, Slovak Telecom

SWIFT BIC: SPSRSKBA
