XII. Jednodňová zdravotná starostlivosť

1. Ak v tejto časti nie je dojednané inak, poskytovateľ vykazuje výkony jednodňovej zdravotnej starostlivosti (ďalej len „JZS“) a zdravotná poisťovňa ňou uznané výkony JZS uhrádza:

- a) v rozsahu zazmluvnených odborností JZS podľa prílohy č. 1, ktorá tvorí neoddeliteľnú súčasť tejto zmluvy,
- b) za podmienok vyplývajúcich zo zmluvy a za podmienok uvedených v dokumente „Cenník jednodňovej zdravotnej starostlivosti“ v znení platnom v čase poskytnutia výkonu JZS a zverejnenom na webovom sídle zdravotnej poisťovne (ďalej len „Cenník JZS“),
- c) v príslušnej cene určenej v Cenníku JZS pre **klaster 4**, do ktorého je poskytovateľ zaradený.

2. V cene výkonu JZS sú zahrnuté všetky náklady spojené s jeho vykonaním, t. z. komplexné vyšetrenie poistenca lekárom realizujúcim výkon, poskytnutie výkonu podľa zdravotnej indikácie, použitie zdravotníckych pomôcok (ak nie je ďalej uvedené inak), kompletná anesteziologická starostlivosť (pred, počas i po operácii), v indikovaných prípadoch aj histológia (odoslanie odobratého biologického materiálu, záznam o výsledku v zdravotnej dokumentácii, manažment pacienta v prípade pozitivity nálezu), všetka zdravotná starostlivosť v pooperačnom období súvisiaca s výkonom JZS, rady a poučenia poistenca pred jeho prepustením do domácej starostlivosti.

3. V prípade, že poskytovateľ jednodňovej zdravotnej starostlivosti pri poskytovaní zdravotnej starostlivosti použije nasledovný špeciálny zdravotnícky materiál (ďalej len „ŠZM“):

- a) prsníkový implantát v špecializačnom odbore plastická chirurgia,
- b) prsníkový expandér v špecializačnom odbore plastická chirurgia,
- c) prsníkový expandér – implantát v špecializačnom odbore plastická chirurgia,
- d) suburetrálna páska v špecializačnom odbore gynekológia a pôrodníctvo a v špecializačnom odbore urológia,
- e) vnútroočná šošovka v špecializačnom odbore oftalmológia,

zdravotná poisťovňa ho uhradí ako pripočítateľnú položku k úhrade výkonu do výšky obstarávacej ceny ŠZM, najviac však do výšky príslušnej maximálnej úhrady zdravotnej poisťovne za ŠZM uvedenej v Zozname špeciálneho zdravotníckeho materiálu zverejneného na webovom sídle zdravotnej poisťovne pri súčasnom dodržaní všetkých ostatných príslušných podmienok úhrady ŠZM. Ak je obstarávacia cena ŠZM vyššia ako maximálna úhrada zdravotnej poisťovne za ŠZM ako pripočítateľnej položky uvedenej v Zozname špeciálneho zdravotníckeho materiálu zverejneného na webovom sídle zdravotnej poisťovne, je tento rozdiel zahrnutý do úhrady výkonu, v súvislosti s ktorým bol ŠZM použitý. Týmto nie je dotknutá výška doplatku poistenca na úhradu ŠZM.

4. Poskytovateľ je povinný zabezpečiť histologické vyšetrenie biologického materiálu u výkonov, u ktorých je to indikované, zabezpečiť zaznamenanie výsledku histologického vyšetrenia do zdravotnej dokumentácie poistenca a zabezpečiť jeho sprístupnenie tomu poskytovateľovi, ktorý je príslušný na poskytovanie ďalšej potrebnej zdravotnej starostlivosti.

5. V prípade vzniku komplikácií v súvislosti s poskytnutím JZS, ktoré si vyžadujú následnú hospitalizáciu poistenca, je zdravotná poisťovňa oprávnená vykonať kontrolu vykázaných a uhradených výkonov a s výsledkom kontroly oboznámi písomne poskytovateľa. Ak sa vykonanou kontrolou preukáže, že ku komplikáciám vzniknutým u poistenca došlo z dôvodu nesprávnej indikácie alebo nesprávneho poskytnutia výkonov JZS, môže byť úhrada za poskytnutý výkon JZS v zmysle bodu 8.1. zmluvy považovaná za neoprávnenú.

6. V rozsahu vyplývajúcom z tabuľky tohto bodu sa zmluvné strany odlišne od Cenníka JZS dohodli na úhrade pri nasledovných výkonoch JZS:
